ECS Project No. 47:4837-E

Reference: Phase I Environmental Site Assessment Report, Xenith Bank Edinburgh Site, 204 Carmichael Way, Chesapeake, Virginia 23322

Dear Mr. Patton:

ECS Mid-Atlantic, LLC (ECS) is pleased to provide you with the results of our Phase I Environmental Site Assessment (ESA) for the referenced site. ECS services were provided in general accordance with ECS Proposal No. 47:5680-P authorized on September 29, 2017 and generally meet the requirements of ASTM E1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and EPA Standards and Practices for All Appropriate Inquiries contained in 40 CFR Part 312.

If there are questions regarding this report, or a need for further information, please contact the undersigned.

ECS Mid-Atlantic, LLC

#### ENVIRONMENTAL PROFESSIONAL STATEMENT

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Kally Ravis

Kaelyn Davis, PWS Senior Project Manager November 17, 2017

#### **1.0 EXECUTIVE SUMMARY**

ECS Mid-Atlantic, LLC (ECS) was contracted by Union Bank & Trust to perform an ASTM E1527-13, Phase I Environmental Site Assessment (ESA) of the Xenith Bank Edinburgh Site located at 204 Carmichael Way in Chesapeake, Virginia (i.e. subject property). This Executive Summary is an integral part of the Phase I ESA report. ECS recommends that the report be read in its entirety.

The subject property is identified by the City of Chesapeake with Parcel No. 0730000001761 and is owned by Hampton Roads Bankshares, Inc.. The approximately 1.673-acre subject property is occupied by a 10,660 square foot commercial bank, Xenith Bank, that was constructed in 2008. The subject property is serviced by the City of Chesapeake municipal water and sanitary sewer. The building is heated and cooled with electricity.

The subject property is located in a commercial area of Chesapeake. The subject site is bordered to the north by vacant open and forested land. To the east, the Chesapeake Expressway (Route 168) is present followed by undeveloped forested land. A strip center type structure that contains Glass Orthodontics, Asian Grill, Hair Cutter, and Edinburgh Family Dentistry is present to the south of the site followed by a Chick-fil-A restaurant. To the west, Buffalo Wild Wings restaurant is present followed by another strip center type structure that contains nail/hair salons, restaurants, and a drop-off drycleaning business (K's Cleaners).

Based on the records search, site reconnaissance and interviews, it appears that the subject property was developed with its current building, a commercial bank, in 2008. Prior to that time, the subject property was undeveloped agricultural or forested land. The surrounding properties have a similar development pattern as the subject site. The area as rural agricultural and/or residential land with a large swamp prior to the start of development in the mid-2000's. Historical records prior to 1902 were not reasonably ascertainable for the subject property.

A regulatory database search report was provided by EDR. The database search involves researching a series of Federal, State, Local, and other databases for facilities and properties that are located within specified minimum search distances from the subject property. The report did not identify the subject property on the databases researched. The EDR report identified several off-site properties within the minimum ASTM search distances. Based on our review of available public records, none of the listings are believed to represent a REC for the subject property.

ASTM E1527-13 defines a "data gap" as: "a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information". Some data gaps included lack of response from the City of Chesapeake Building and Health Departments. Data gaps which would be expected to impact our ability to render a professional opinion concerning the subject property were not identified.

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM E1527-13 of the Xenith Bank Edinburgh Site located at 204 Carmichael Way in Chesapeake, Virginia. Exceptions to, or deletions from, this practice are described in Section 2.6 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the property.

#### **2.0 INTRODUCTION**

#### 2.1 Purpose and Reason for Performing Phase I ESA

The purpose of the ESA was to:

- evaluate the probability of impact to the surface water, groundwater and/or soils within the property boundaries through a review of regulatory information and a reconnaissance of the subject property and vicinity;
- evaluate historical land usage to identify previous conditions that could potentially impact the environmental condition of the subject property;
- conduct all appropriate inquiry as defined by ASTM E1527-13 and 40 CFR Part 312;
- evaluate the potential for on-site and off-site contamination; and,
- provide a professional opinion regarding the potential for environmental impact at the site and a list of Recognized Environmental Conditions (RECs).

The ESA should allow the Users the opportunity to qualify for landowner liability protection under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) provided certain stipulations are met. The landowner liability protections are: an innocent landowner, a contiguous property owner, or a bona fide prospective purchaser. The User must meet the protection stipulations detailed in CERCLA to qualify as well as meet the User Obligations contained within the ASTM E1527- 13 standard.

The reason for conducting this ESA is to perform all appropriate inquiries into the uses and prior ownership of the subject property for a pending real estate transaction.

#### 2.2 Scope of Services

The environmental assessment was conducted in general accordance with ASTM E1527-13 and EPA Standards and Practices for All Appropriate Inquiry (40 CFR §312.10). The environmental assessment was conducted under the supervision or responsible charge of an individual that qualifies as an environmental professional, as defined in 40 CFR §312.10.

ECS was contracted by Union Bank & Trust to perform an ASTM E1527-13, Phase I Environmental Site Assessment (ESA) of the Xenith Bank Edinburgh Site located at 204 Carmichael Way in Chesapeake, Virginia. ECS was not contracted to address non-scope considerations.

#### 2.3 Definitions

ASTM E1527-13 defines a "recognized environmental condition (REC)" as "the presence or likely presence of any hazardous substances or petroleum products in, on or at a property: 1) due to release to the environment, 2) under conditions indicative of a release to the environment; or 3) under conditions that pose a material threat of a future release to the environment." For the purposes of this practice, "migrate" and "migration" refer to the movement of hazardous substances or petroleum products in any form including solid and liquid at the surface or subsurface and vapor in the subsurface.

ASTM E1527-13 defines a "business environmental risk" (BER) as "a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice". ECS also uses the term "Other Environmental Considerations" to discuss BERs and environmental concerns outside of the ASTM E1527-13 requirements (radon, asbestos, lead, wetlands, etc.). Client-imposed limitations and site condition limitations, if encountered, are detailed in Section 7.1 Methodology and Limiting Conditions.

ASTM E1527-13 defines a "de minimis condition" as a condition that generally does not represent a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. De minimis conditions are not recognized environmental conditions nor controlled recognized environmental conditions.

ASTM E1527-13 defines a "controlled recognized environmental condition (CREC)" as a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example property use restrictions, activity and use limitations, institutional controls, or engineering controls). A condition identified as a controlled recognized environmental condition does not imply that the Environmental Professional has evaluated or confirmed the adequacy, implementation or continued effectiveness of the required control that has been, or is intended to be, implemented.

ASTM E1527-13 defines a "historical recognized environmental condition (HREC)" as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (for example property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a historical recognized environmental condition, the Environmental Professional must determine whether the past release is a recognized environmental condition at the time the Phase I Environmental Site Assessment is conducted (for example, if there has been a change in the regulatory criteria).

#### 2.4 Limitations

The ESA involved a reconnaissance of the subject property and contiguous properties and a review of regulatory and historical information in general accordance with the ASTM standard and EPA regulation referenced herein. No non-scope considerations or additional issues such as asbestos, radon, wetlands or mold were investigated, unless otherwise described in Section 8.0 of this report.

Note: vapor migration in the subsurface is described in Guide E2600 published by ASTM. ECS has not conducted a Vapor Encroachment Screen in accordance with the E2600 guide.

The conclusions and/or recommendations presented within this report are based upon a level of investigation consistent with the standard of care and skill exercised by members of the same

profession currently practicing in the same locality under similar conditions. The intent of this assessment is to identify the potential for recognized environmental conditions in connection with the subject property; however, no environmental site assessment can completely eliminate uncertainty regarding the potential for recognized environmental conditions in connection with the subject property. The findings of this ESA are not intended to serve as an audit for health and safety compliance issues pertaining to improvements or activities at the subject property. ECS is not liable for the discovery or elimination of hazards that may potentially cause damage, accidents or injury.

Observations, conclusions and/or recommendations pertaining to environmental conditions at the subject property are necessarily limited to conditions observed, and or materials reviewed at the time this study was undertaken. It was not the purpose of this study to determine the actual presence, degree or extent of contamination, if any, at this subject property. This could require additional exploratory work, including sampling and laboratory analysis. No warranty, expressed or implied, is made with regard to the conclusions and/or recommendations presented within this report.

This report is provided for the exclusive use of Union Bank & Trust. This report is not intended to be used or relied upon in connection with other projects or by other unidentified third parties. The use of this report by any undesignated third party or parties will be at such party's sole risk and ECS disclaims liability for any such third party use or reliance.

#### 2.5 Data Gaps

Data failures (historical data gaps) were identified during the historical research of this subject property. Use of the subject property was generally documented back to 1902. Historical information was missing for various periods. However, due to the apparent rural use of the property prior to its development in 2008 into a commercial bank, the historical data gaps are not expected to impact our ability to render a professional opinion regarding the subject property. Data gaps identified, although not significant, include the lack of response from the City of Chesapeake's Building and Health Departments.

#### 2.6 Limiting Conditions/Deviations

ASTM E1527-13 requires that the Environmental Professional identify limiting conditions, deletions, and deviations from the ASTM E1527-13 standard, if any, including client-imposed constraints. The following limiting conditions and/or deviations were encountered during the performance of this Phase I ESA:

• ECS was not provided access to the teller or vault areas of the subject building. Limited access to these areas is not expected to impact our ability to render a professional opinion about the subject site.

# **3.0 SUBJECT PROPERTY DESCRIPTION**

#### 3.1 Subject Property Location and Legal Description

Site Name	Xenith Bank Edinburgh Site
Property Address	204 Carmichael Way
Property City, State	Chesapeake, Virginia
Number of Parcels	1
Property ID Number(s)	073000001761
Property Size	1.673 Acres
Property Owner of Record	Hampton Roads Bankshares, Inc.
Property Legal Description	See Appendix II.

#### 3.2 Physical Setting and Hydrogeology

USGS Topographic Map	USGS Topographic Map			
Quad Designation	Fentress			
Date	2013			
Subject Property Settings				
Average Subject Property Elevation (in ft or meters)	20 feet above mean sea level (amsl)			
General Sloping Direction	North and west (slight slope)			
Bodies of Water	None			
General Directions of Surface Flow	Curb and gutter			
Presumed Direction of Groundwater Flow	North			
Geologic Province	Coastal Plain			
Up-gradient Property Direction	South and east			
Nearby Properties' Setting				

General Sloping Direction	Varies depending on the adjacent property, but generally towards a nearby road.
Bodies of Water	A large swamp/marsh approximately 295 feet to the north of the site.
General Directions of Surface Flow	Curb and gutter
Presumed Direction of Groundwater Flow	North

Regional influences such as tidal changes, building sumps, dewatering, karst conditions, impermeable soils, etc. may have an impact on groundwater flow. The actual groundwater flow direction cannot be determined without site-specific information obtained through the gauging of groundwater monitoring wells.

#### 3.3 Current Use and Description of the Site

The subject property consists of an approximately 1.673-acre parcel of land that is currently utilized as a commercial bank. The subject property is improved with a 2-story bank that is occupied by Xenith Bank and is approximately 10,660 square feet in size. The subject property is located in an area that can generally be described as commercial.

#### 4.0 USER PROVIDED INFORMATION

The ASTM standard includes disclosure and obligations of the User to help the Environmental Professional identify the potential for Recognized Environmental Conditions associated with the subject property. The ASTM E1527-13 User Questionnaire was submitted to and completed by Larry Patton, representing Union Bank & Trust (User of the report). Section 4.0 is based on the completed User Questionnaire. A copy of the completed User Questionnaire is included in Appendix II.

#### 4.1 Title Information

ECS was provided with limited title information in the Security First Title Resource Environmental Lien Report. The title information stated that Hampton Roads Bankshares, Inc. is the current owner who purchased the property from W. Preston Fussell on September 28, 2006. Ownership information prior to 2006 was not readily available.

#### 4.2 Environmental Liens or Activity and Use Limitations

ECS was contracted by the User to obtain environmental liens or activity and use limitations (AULs) information. According to the information provided by Security First Title Resource, no environmental liens or AULs were identified in the deed information for the subject property. A copy of the Security First Title Resource report is included in Appendix II of this report.

#### 4.3 Specialized Knowledge

The User indicated that they did not possess specialized knowledge of the subject property.

#### 4.4 Commonly Known or Reasonably Ascertainable Information

The User indicated that they were not aware of commonly known environmental concerns related to the subject property.

#### 4.5 Valuation Reduction for Environmental Issues

According to the User, the purchase price being paid for the subject property reasonably reflects its fair market value.

#### 4.6 Owner, Property Manager, and Occupant Information

The property is currently owned by Hampton Roads Bankshares, Inc. Xenith Bank currently occupies the subject building.

#### 4.7 Degree of Obviousness

The User stated that they were not aware of obvious indicators that point to the presence or likely presence of contamination at the subject property.

#### **5.0 RECORDS REVIEW**

A regulatory records search of ASTM standard and supplemental databases was conducted for the subject property and is included in Appendix III. The regulatory search report in the appendix includes additional details about the regulatory databases that were reviewed. The regulatory records search involves searching a series of databases for facilities that are located within a specified distance from the subject property. The ASTM standard specifies an approximate minimum search distance from the subject property for each database. Pursuant to ASTM, the approximate minimum search distance may be reduced for each standard environmental record except for Federal NPL site list, and Federal RCRA TSD list. According to ASTM, government information obtained from nongovernmental sources may be considered current if the source updates the information at least every 90 days or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public. The following table indicates the standard environmental record sources and the approximate minimum search distances for each record.

Standard Environmental Record Sources	Approximate Minimum Search Distance Per ASTM (miles)	Subject Property	Off-Site Properties
Federal NPL	1.0	No	0
Federal Delisted NPL	0.5	No	0
Federal CERCLIS	0.5	No	0
Federal CERCLIS NFRAP	0.5	No	0
Federal RCRA CORRACTS	1.0	No	0
Federal RCRA non-CORRACTS TSD	0.5	No	0
Federal RCRA Generators	Subject Site and Adjoining Properties	No	1
Federal IC/EC	Subject Site Only	No	0
Federal ERNS	Subject Site Only	No	0
State and Tribal Hazardous Waste Sites (NPL Equivalent)	1.0	No	0
State and Tribal Hazardous Waste Sites (CERCLIS Equivalent)	0.5	No	0
State and Tribal Landfill and/or solid waste disposal sites	0.5	No	0
State and Tribal Leaking Tanks	0.5	No	1

Standard Environmental Record Sources	Approximate Minimum Search Distance Per ASTM (miles)	Subject Property	Off-Site Properties
State and Tribal Registered UST and AST	Subject Site and Adjoining Properties	No	1
State and Tribal IC/EC	Subject Site Only	No	0
State and Tribal Voluntary Cleanup (VCP)	0.5	No	0
State and Tribal Brownfield Sites	0.5	No	0

Based on our knowledge of the subject property and the surrounding area, ECS attempts to verify and interpret this data. While this attempt at verification is made with due diligence, ECS cannot guarantee the accuracy of the record(s) search beyond that of information provided by the regulatory report(s). ECS makes no warranty regarding the accuracy of the database report information included within the regulatory report(s).

The regulatory database report from EDR was dated October 2, 2017.

The regulatory record search was performed by EDR. ECS did not reduce the minimum ASTM search distances stipulated in the standard. The regulatory databases reviewed by ECS included supplemental databases researched by EDR.

#### 5.1 Federal ASTM Databases

#### 5.1.1 Federal RCRIS - Generators

RCRIS identifies facilities that generate hazardous wastes as defined by the RCRA. Conditionally exempt small quantity generators (CESQGs) generate less than 100 kilograms of hazardous waste, or less than 1 kilogram of acutely hazardous waste, per month. Small quantity generators (SQGs) generate between 100 and 1,000 kilograms of hazardous waste per month. Large quantity generators (LQGs) generate more than 1,000 kilograms of hazardous waste or more than 1 kilogram of acutely hazardous waste per month.

The EDR report lists 1 facility within the search radius for the database. This facility is located greater than 800 feet from the subject property. Based on the distance from the subject property, ECS does not consider this listing to be a REC for the subject property. Additional information pertaining to this listing can be viewed in the regulatory report included in Appendix III.

#### 5.2 State ASTM Databases

#### 5.2.1 State Leaking Tanks (LTANKS)

The LTANKS database is a list of all reported leaking underground and aboveground tanks recorded by the state.

The EDR report lists 1 facility within the search radius for the database. This facility is located greater than 1,000 feet from the subject property. Based on the distance from the subject property, ECS does not consider this listing to be a REC for the subject property. Additional information pertaining to this listing can be viewed in the regulatory report included in Appendix III.

#### 5.2.2 Leaking Underground Storage Tank (LUST) List

The LUST list is a record of reported leaking underground storage tank incidents. The LUST list may also identify properties that have had soil and/or groundwater contamination associated with documented releases from aboveground storage tanks, surface spills, and other sources.

The EDR report lists 1 facility within the search radius for the database. This facility is located greater than 1,000 feet from the subject property. Based on the distance from the subject property, ECS does not consider this listing to be a REC for the subject property. Additional information pertaining to this listing can be viewed in the regulatory report included in Appendix III.

#### 5.2.3 Registered Underground Storage Tank (UST) List

The Registered UST List inventories underground storage tanks registered with the state. This list does not identify USTs that have not been registered or are exempt, such as home heating oil tanks and other unregulated tanks.

The EDR report lists 1 facility within the search radius for the database. This facility is located greater than 1,000 feet from the subject property. Based on the distance from the subject property, ECS does not consider this listing to be a REC for the subject property. Additional information pertaining to this listing can be viewed in the regulatory report included in Appendix III.

#### 5.3 Additional Environmental Record Sources

#### 5.3.1 Additional Non-ASTM Federal Databases

Neither the subject property nor properties within the designated search radii were identified on the additional Non-ASTM federal databases researched for this assessment.

#### 5.3.2 Additional Non-ASTM State Databases

Neither the subject property nor properties within the designated search radii were identified on the additional Non-ASTM state databases researched for this assessment.

#### 5.3.3 Other Proprietary Databases

#### 5.3.3.1 EDR Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/ filling station/service station establishments. The categories reviewed included, but were not limited

to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc.

**Stak Automotive, LLC, 236 Carmichael Way** - Stak Automotive is listed in the EDR report as being located approximately 425 feet to the west of the subject site. The facility is listed as operating at this address from 2010 to 2014. At the time of the site reconnaissance, this facility was not observed in the shopping center building located to the west of the site. Additionally, a space that appeared to have once conducted auto repairs within the building was not observed and it is inferred this business sold auto repair parts instead of conducting auto repairs onsite. Even if this business did conduct auto repairs, it is located to pographically cross-gradient and at a distance relative to the subject site that it is not expected to adversely impact the subject site. As a result, this facility is not considered a REC for the subject site.

#### 5.3.4 Unmapped (Orphan) Facilities and Sites

Several properties were identified on the Orphan Summary List. These facilities are considered as unmappable because the facility information in the database is insufficient and does not report accurate facility location.

#### 5.4 Regulatory Review Summary

A regulatory database search report was provided by EDR. The database search involves researching a series of Federal, State, Local, and other databases for facilities and properties that are located within specified minimum search distances from the subject property. The report did not identify the subject property on the databases researched. The EDR report identified several off-site properties within the minimum ASTM search distances. Based on our review of available public records, ECS does not consider the listings to be potential sources of soil, groundwater or vapor impact to the subject property. Therefore, ECS does not consider the listed sites to be RECs for the subject property.

#### 6.0 HISTORICAL USE INFORMATION

#### 6.1 Aerial Photograph Review

ECS reviewed aerial photographs of the subject property and immediately surrounding properties for evidence of former usage which may indicate potential environmental issues. The aerial photographs were obtained from EDR. The aerial photographs reviewed were dated 1953, 1959, 1961, 1971, 1973, 1982, 1990, 1994, 2000, 2005, 2008, 2009, 2011, and 2012. Aerial photographs dated prior to 1953 were not available for review. The ECS review is dependent on the quality and scale of the photographs. The following is a description of relevant information from the aerial photographs:

Year(s)	Subject Property	Adjoining Properties	REC? (yes or no)
2009-2012	The subject site appears as it does today, a commercial property that is developed with a bank.	The surrounding properties appear as they do today, commercial properties to the south and west, undeveloped wooded land to the north, and Chesapeake Expressway to the east of the site.	No
2008	No changes noted.	The shopping center building located to the immediate south of the site is no longer depicted and the area is undeveloped land.	No
2005	The site is undeveloped open land. The subject building is reported to have been constructed in 2008.	The shopping center the subject site is located within is no longer depicted and the area is open undeveloped land.	No
2000	The site appears to be dense forested land.	The surrounding properties appear to be dense forested land. Chesapeake Expressway located to the east of the site appears to be under construction.	No
1994	No changes noted.	Chesapeake Expressway is not visible.	No
1953-1990	The subject site appears to be agricultural land with some potential stream beds running through the property.	The surrounding properties appear to be agricultural land and rural residential with little to no development.	No

#### 6.2 Sanborn Fire Insurance Map Review

In an effort to identify past uses, ECS utilized EDR to search for historical Sanborn Fire Insurance Maps (Sanborn) for the subject property and surrounding area. Sanborn maps were not available for this area. The absence of such maps generally indicates that the subject property is located in an area where Sanborn maps were not produced because the area was rural or it was not economically feasible. ECS does not expect the lack of Sanborn maps to impact our ability to render a professional opinion concerning the subject property given the amount of historical information obtained from our research, the USGS topographic map, aerial photographs, city directories, and other historical records obtained. A copy of the Unmapped Property report is included within Appendix IV.

#### 6.3 Property Tax Files

Property tax files may include records of past ownership, appraisals, maps, sketches, photos or other information kept by the local jurisdiction for property tax assessment purposes. According to the City of Chesapeake tax assessor on-line information, the subject property is owned by Hampton Roads Bankshares, Inc.. The subject property is listed as a 1.673-acre parcel with an identification number of 0730000001761. Additionally, the on-site building is reported as being constructed in 2008 and contains 10,660 square feet of space.

#### 6.4 Recorded Land Title Records

Recorded land title records may include leases, land contracts, and AULs recorded by the local jurisdiction. Land title records may provide only a list of the names of previous owners and may be of limited use; however, they may provide useful information about uses or occupancy of the property when employed in combination with other sources.

Title information provided to ECS is discussed further in Section 4.1 and is included here in Appendix II.

#### 6.5 Historical USGS Topographic Maps

Topographic maps are produced by the United States Geological Survey (USGS) for various time periods. ECS reviewed Historical Topographic Maps depicting the subject property covering the following years: 1902, 1939, 1945, 1954, 1971, 1986, and 2013.

Year(s)	Subject Property	Adjoining Properties	REC? (yes or no)
2013	No structures are depicted on the subject site.	No structures are depicted on the surrounding properties. Major roads for the shopping center the subject site is located within are depicted. Additionally, the Chesapeake Expressway located to the east of the site is present.	No

Year(s)	Subject Property	Adjoining Properties	REC? (yes or no)
1902-1986	The subject site is depicted as undeveloped land located within or near a swamp throughout these topographic maps.	The surrounding properties are depicted as undeveloped land throughout these topographic maps. A large swamp is depicted throughout to the north and west of the subject site.	No

#### 6.6 City Directory Review

One of the ASTM standard historical sources to be reviewed for previous subject property uses is local street directories, commonly known as City Directories. The purpose of the directory review is to identify past occupants of the subject property, adjoining properties, or nearby properties. In some rural areas, street directories information is limited. The following is a description of relevant information from the city directories:

Year(s)	Subject Property	Adjoining Properties	REC? (yes or no)
2013	No listing.	The surrounding property's listing include, but are not limited to, residential, restaurants, drycleaning (KS Cleaners - drop off location), doctor's offices, insurance agencies, cell phone providers, jewelers, hair/nail salons, and coffee shops listings. A gas station is listed at 2201 Battlefield Boulevard which is located over 1.25 miles from the site and not considered a REC for the subject site.	No
1973-2008	No listing.	The surrounding property's listing include, but are not limited to, residential, gas station (not a REC), Scrapaholics, Advance America Cash Advance, churches, school, and/or Tree Removal Service.	No

#### 6.7 Building Department Records

The term building department records means those records of the local government indicating permissions of the local government to construct, alter or demolish improvements on the property.

ECS contacted the City of Chesapeake Building Department to determine if they had historical information regarding construction dates, inspections, or other information regarding the subject property. A Freedom of Information Act request was submitted to the Building Department on October 10, 2017. No information has been received at the time of the report completion. If information is received that changes the conclusions or recommendations of this report, ECS will forward the information to the Client.

#### 6.8 Zoning/Land Use Records

The term zoning/land use records refers to records of the local government indicating the uses permitted by the government in particular zones within its jurisdictions.

ECS reviewed zoning/land use records obtained from the City of Chesapeake. The subject property is currently zoned for PUD - Planned Unit Development use.

#### 6.9 Other Historical Sources

Other credible historical sources may be reviewed to identify past uses of the subject property. These sources may include websites, county or state road maps, historical society documents, or local library information.

Kaelyn Davis contacted the Environmental Health Department on October 10, 2017 to determine if they had historical information regarding environmental issues or responses at the subject property. No information has been received at the time of the report completion. If information is received that changes the conclusions or recommendations of this report, ECS will forward the information to the Client.

The City of Chesapeake Fire Department was contacted to determine if they had historical information regarding environmental issues or responses at the subject property. A Freedom of Information Act request was submitted to the Fire Department on October 10, 2017. The Fire Department responded and determined they have no records of hazardous material use or incidents, no listed Fire Code violations, no records of tank removal or closure in-place, and no other knowledge pertaining to environmental concerns regarding the subject property.

#### 6.10 Previous Reports

We have not been provided with environmental or engineering assessment reports for the subject property completed by others, nor has ECS completed similar studies or prior assessments of the subject property.

# 6.11 Historical Use Summary

According to historical research, the subject property has been a commercial bank and the area has developed slowly from a primarily rural area to a commercial shopping center located in Chesapeake, Virginia.

No obvious indications of RECs were identified in the historical data review.

#### 7.0 SITE AND AREA RECONNAISSANCE

#### 7.1 Methodology

Kaelyn Davis of ECS conducted the field reconnaissance on October 19, 2017. The weather at the time of the reconnaissance was sunny and warm. Observations were made from a walking reconnaissance around the perimeter, around the buildings, through the buildings and along several transects across the subject property. Access was not provided in the teller or vault areas of the bank. Access or visibility limitations, if any, are discussed in Section 2.6. Subject property photographs are included in Appendix V.

#### 7.2 On-Site Features

The subject property contains an approximate 10,660-square foot commercial building that is occupied by Xenith Bank. The building was constructed in 2008. The building is a two story building that contains a teller area, office space, a kitchen, restrooms, a bank vault, and a drive-through ATM. The building is heated with an electric heat pump. The subject property receives municipal water and sanitary sewer services from the City of Chesapeake.

The table below lists pertinent features of interest that were assessed for the subject property. Relevant information regarding pertinent features is discussed further in this section.

Feature	Yes	No
Underground or aboveground storage tanks		~
Strong, pungent or noxious odors		~
Surface waters		~
Standing pools of liquid likely containing petroleum or hazardous substances		~
Drums or containers of petroleum or hazardous substances greater than five-gallons		~
Drums or containers of petroleum or hazardous substances less than or equal to five-gallons		~
Unidentified opened or damaged containers of hazardous substances or petroleum products		~
Known or suspect PCB-containing equipment (excluding light ballasts)		~
Stains or corrosion to floors, walls or ceilings		~
Floor drains and sump pumps	~	
Pits, ponds or lagoons		~
Stained soil or pavement		~

Feature	Yes	Νο
Stressed vegetation		~
Solid waste mounds or non-natural fill materials		✓
Wastewater discharges into drains, ditches or streams		✓
Groundwater wells including potable, monitoring, dry, irrigation, injections and/or abandoned		~
Septic systems or cesspools		✓
Elevators	~	
Dry cleaning		✓
Onsite emergency electrical generators		✓
Specialized industrial equipment (paint booths, bag houses, etc.,) on-site		~
Hydraulic lifts		✓
Oil-water separators		~
Compressors on-site		~
Grease traps		✓

### 7.2.1 Known or suspect PCB-containing equipment (excluding light ballasts)

A pad-mounted transformer is located on the subject property in the northwestern corner of the site. The located where the blue non-PCB sticker is located was observed; however, it appears the sticker recently fell off. Staining, which could be indicative of leakage, was not observed on the transformer or surfaces in the vicinity of the transformer. This is not considered a REC.

#### 7.2.2 Floor drains and sump pumps

Floor drains are located in the bathrooms of the subject building and drain water from cleaning the floor. It is reported that the floor drains discharge into the City's sanitary sewer system.

#### 7.2.3 Elevators

Hydraulic elevators are located in the building. Hydraulic fluid is stored in above ground cylinders located in the elevator equipment room adjoining the elevator shaft. Staining was not observed in the vicinity of the hydraulic fluid cylinders. Due to safety concerns and building operations, ECS did not view the bottom of the elevator shaft.

#### 7.3 Adjoining and Nearby Properties

Contiguous and nearby properties were observed during a walking and vehicular reconnaissance of the subject property boundary and public places. The subject property is located in a commercial area of Chesapeake, Virginia.

Direction	Description	<b>Relative Gradient</b>	REC
North	The subject site is bordered to the north by vacant open and forested land.	Down-gradient	No
East	To the east, the Chesapeake Expressway (Route 168) is present followed by undeveloped forested land.	Up-gradient	No
South	A strip center type structure that contains Glass Orthodontics, Asian Grill, Hair Cutter, and Edinburgh Family Denistry is present to the south of the site followed by a Chick-fil-a restaurant.	Up-gradient	No
West	To the west, Buffalo Wild Wings restaurant is present followed by another strip center type structure that contains nail/hair salons, restaurants, and a drop-off drycleaning business (K's Cleaners).	Cross-gradient	No

#### 7.4 Site and Area Reconnaissance Summary

According to our site observations and a review of adjoining and nearby properties, the subject property is used as commercial bank. The subject property is located in a commercial area of Chesapeake, Virginia. Details pertaining to our on-site and off-site observations are referenced previously. We did not identify on-site or off-site RECs associated with the subject property or neighboring properties and businesses during the reconnaissance.

#### 8.0 ADDITIONAL SERVICES

ASTM guidelines identify non-scope issues, which are beyond the scope of this practice. Non-scope issues have the potential to be business environmental risks. Some of these non-scope issues include; asbestos-containing building materials, radon, lead-based paint, lead in drinking water, wetlands and mold.

ECS was not authorized to assess non-scope issues in conjunction with this assessment.

#### 9.0 INTERVIEWS

During the site reconnaissance, Kaelyn Davis interviewed Kelly Teger. She has approximately 4 years of knowledge related to the subject property and associated activities. She indicated that she is not aware of 1) environmental concerns associated with the subject property; 2) any pending, past, or threatened administrative litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or 3) any government notices regarding any possible violation of environmental laws or possible liability related to hazardous substances or petroleum products.

Kaelyn Davis spoke with an employee of the K's Cleaners business located to the west of the site. She indicated the site is a drop-off only location and they do not utilized dry cleaning chemicals at the nearby facility. ECS did not observed or hear dry cleaning equipment running during the interview; however, it should be noted, ECS was not provided access throughout the building to confirm nor deny this information.

#### **10.0 FINDINGS AND CONCLUSIONS**

The subject property is identified by the City of Chesapeake with Parcel No. 0730000001761 and is owned by Hampton Roads Bankshares, Inc.. The approximately 1.673-acre subject property is occupied by a 10,660 square foot commercial bank, Xenith Bank, that was constructed in 2008. The subject property is serviced by the City of Chesapeake municipal water and sanitary sewer. The building is heated and cooled with electricity.

The subject property is located in a commercial area of Chesapeake. The subject site is bordered to the north by vacant open and forested land. To the east, the Chesapeake Expressway (Route 168) is present followed by undeveloped forested land. A strip center type structure that contains Glass Orthodontics, Asian Grill, Hair Cutter, and Edinburgh Family Dentistry is present to the south of the site followed by a Chick-fil-A restaurant. To the west, Buffalo Wild Wings restaurant is present followed by another strip center type structure that contains nail/hair salons, restaurants, and a drop-off drycleaning business (K's Cleaners).

Based on the records search, site reconnaissance and interviews, it appears that the subject property was developed with its current building, a commercial bank, in 2008. Prior to that time, the subject property was undeveloped agricultural or forested land. The surrounding properties have a similar development pattern as the subject site. The area as rural agricultural and/or residential land with a large swamp prior to the start of development in the mid-2000's. Historical records prior to 1902 were not reasonably ascertainable for the subject property.

A regulatory database search report was provided by EDR. The database search involves researching a series of Federal, State, Local, and other databases for facilities and properties that are located within specified minimum search distances from the subject property. The report did not identify the subject property on the databases researched. The EDR report identified several off-site properties within the minimum ASTM search distances. Based on our review of available public records, none of the listings are believed to represent a REC for the subject property.

ASTM E1527-13 defines a "data gap" as: "a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information". Some data gaps included lack of response from the City of Chesapeake Building and Health Departments. Data gaps which would be expected to impact our ability to render a professional opinion concerning the subject property were not identified.

We have performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM E1527-13 of the Xenith Bank Edinburgh Site located at 204 Carmichael Way in Chesapeake, Virginia. Exceptions to, or deletions from, this practice are described in Section 2.6 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the property.

RE: FOIA Information Request Xenith Bank 204 Carmichael Way Chesapeake, VA

Dear Mr. Rexford:

Please accept this FOIA request for information for the above-referenced property. This request is a requirement for a Phase I Environmental Site Assessment for the above property. The site (204 Carmichael Way, Chesapeake, VA) consists of a bank. As part of our assessment, we are interested in obtaining the most up-to-date information from your Department regarding any known environmental complaints, well or septic permits, or other files your Department may have on this property or adjacent areas.

If documentation is available, I would be interested in scheduling an appointment to review the records. We appreciate your assistance in the completion of this assessment. If you have any questions concerning this matter, please feel free to email me at <u>kdavis1@ecslimited.com</u>.

Respectfully submitted,

ECS Mid-Atlantic, LLC

#### Re: FOIA Request Regarding 204 Carmichael Way

Dear Ms. Davis:

The City is in receipt of your Freedom of Information Act (FOIA) request, received on October 10, 2017, regarding 204 Carmichael Way, specifically historical information regarding construction dates, inspections, or other information regarding the site and adjacent site, as well as environmental concerns or permits for underground storage tank installations or removals, or other files. Additionally, although you asked for information involving this address "and adjacent site," the City will need you to identify the adjacent site in order to perform a search. Consequently, we are only providing information for 204 Carmichael Way.

The City's Fire Department reports that they have no records of hazardous material use or incidents, no listed Fire Code violations, no records of tank removal or closure in-place, and no other knowledge pertaining to environmental concerns regarding the subject property. Additionally, attached is a copy of the documents that the City's Department of Public Works has determined to be responsive to your request. You had indicated in your letter that you wanted to come inspect these documents- if you would still like to do so, please contact me to set up a time. I have attached copies of the documents anyway as a courtesy. The Department of Public Works indicated that they do not have a copy of the Phase I ESA report on file for the Edinburgh Commons Daycare.

The City's Department of Development & Permits also may have documents responsive to your request. However, due to a high volume of FOIA requests, it is not practically possible for Development & Permits to search for and produce the requested records within five (5) business days from the date your request was received by the City. As such, this is to advise you that Section 2.2-3704(B)(4) of the Code of Virginia, 1950, as amended, affords the City an additional seven (7) business days to make the requested records available.

If you have any questions, please do not hesitate to contact me. With kindest regards, I am

Sincerely,

Monica L. Wilburn

The Environmental Lien Search Report (ELS) provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering control and institutional controls. Our in house professional abstractors / title examiners, following established procedure, use client supplied property data, such as property address, map, parcel number etc. to search for:

- parcel information and / or legal description
- search for ownership information
- research official recorded land title documents
- provide a copy of the deed
- search for environmental encumbering instrument (s) associated with the deed
- provide a copy of any environmental encumbrance (s) based upon a review of key words in the Instrument (s) (title, parties involved, and description).

Below is the property data information and Environmental Lien Search report of the subject property for a period Ending October 12, 2017.

A copy of the current vesting deed is attached hereto and made a part hereof.

## BK6767PG806

#### DEED

THIS DEED is made as of this 28<sup>th</sup> day of September, 2006, by and between W. **PRESTON <u>FUSSELL</u>** ("Grantor"), and **HAMPTON ROADS BANKSHARES, INC.**, a Virginia banking corporation (the "Grantee"), having a current address of 999 Waterside Dive, Suite 200, Norfolk, Virginia 23510.

#### WITNESSETH:

That for and in consideration of the sum of Ten Dollars (\$10.00), cash in hand paid, and other good and valuable consideration, the sufficiency and receipt of which are acknowledged, Grantor grants and conveys, with Special Warranty of Title to Grantee, the following described property (the "Property"):

ALL THAT certain lot, piece or parcel of land, together with the buildings and improvements thereon, and appurtenances thereunto belonging, situate, lying and being in the Pleasant Grove Borough of the City of Chesapeake, Virginia, and being known, numbered and designated as Parcel N5, , as shown on that certain plat entitled "Subdivision of Parcel N4, Edinburgh Commons North, As Shown In M.B. 148, Pgs. 56 – 56B And Property Owned By the City Of Chesapeake, As Shown In Map Book 3911, At Page 131, Pleasant Grove Borough, Chesapeake, Virginia", which said plat is duly recorded in the Clerk's Office of the Circuit Court of the City of Chesapeake, Virginia (the "Clerk's Office"), in Map Book 149, at Page 86 and 86A.

IT BEING the same property conveyed to Grantor by Precon Development Corporation, Inc. by deed dated September 27, 2006 and intended to be recorded in the Clerk's Office immediately prior to this instrument.

This conveyance is also made expressly subject to the unexpired covenants, conditions, restrictions, reservations and easements, if any, lawfully affecting the Property, duly of record and constituting constructive notice.

#### **DECLARATION OF RESTRICTIONS**

THIS DECLARATION OF RESTRICTIONS (this "Declaration") is made as of this <u>1</u> day of May, 2010, by <u>THE BANK OF HAMPTON ROADS</u>, a Virginia banking corporation which is the successor-by-merger to <u>GATEWAY BANK &</u> <u>TRUST CO.</u> (collectively, the "Grantor"); and <u>HAMPTON ROADS BANKSHARES</u>, <u>INC.</u>, a Virginia corporation (the "Grantee").

#### **RECITALS:**

A. Grantor, a Virginia banking corporation which is the successor-by-merger to Gateway Bank & Trust Co. (as evidenced by the certificate of merger attached hereto as Exhibit A and incorporated herein by this reference), is the owner of that certain parcel of lot, piece or parcel of land designated as "PARCEL E-7 54,928 S.F. (1.261 ACRES)" ("Parcel E-7"), as shown on that certain subdivision plat entitled "SUBDIVISION PLAT OF REMAINDER OF PARCEL C EDINBURGH AS SHOWN IN M.B. 146, PG. 186 IN PLEASANT GROVE BOROUGH CITY OF CHESAPEAKE COMMONWEALTH OF VIRGINIA", dated December 9, 2005, prepared by Vanasse Hangen Brustlin, Inc., and recorded in the Clerk's Office of the Circuit Court of the City of Chesapeake (the "Clerk's Office") in Map Book 148, at Page 79 and 79A.

B. Grantee is the owner of that certain lot, piece, or parcel of land known as "PARCEL N5 72,896 SQ.FT. (1.673 AC.)" ("**Parcel N5**"), as shown on that subdivision plat entitled "SUBDIVISION OF PARCEL N4 EDINBURGH COMMONS NORTH AS SHOWN IN M.B. 148, PGS. 56-56B AND PROPERTY OWNED BY THE CITY OF CHESAPEAKE AS SHOWN IN MAP BOOK 3911, AT PAGE 131 PLEASANT GROVE BOROUGH CHESAPEAKE, VIRGINIA", dated April 11, 2006, prepared by Hassell & Folkes, P.C., and recorded in the Clerk's Office, in Map Book 149, at Pages 86 & 86A.

C. Grantor and Grantee, are affiliates, and for their mutual benefit have developed and are using Parcel N5 for retail banking purposes; and they now desire to subject Parcel E-7 to the provisions of this Declaration in order to provide for certain benefits and restrictions in connection with the use of Parcel N5 and Parcel E-7.

#### DECLARATION:

NOW, THEREFORE, in consideration of the above premises, the covenants herein contained, the sum of Ten Dollars (\$10.00), and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor

#### 8135 0066

hereby declares that Parcel E-7 shall be maintained, kept, sold and used in compliance with and subject to the terms of this Declaration, and in connection therewith, the Grantor, on its own behalf and on behalf of its successors and assigns, covenants and agrees as follows:

<u>Definitions</u>. For purposes of this Declaration:

8135

0067

1.1 The term "Bank-Credit Union Activity" shall mean and refer to the operation of retail banking uses and operations that include receiving deposits from and/or making loans to the general public (or members or customers drawn from the general public meeting certain requirements that allow them to be members or customers of the entity conducting the Bank-Credit Union Activity (the "Members")), and/or conducting activities as a "Credit Union" (as defined in §6.1-225.2 of the Code of Virginia), when the receiving of deposits, the making of loans, or the conducting of such other activities is accomplished by means of on-site full service, express service, or motor bank facilities, automated teller machines or other self-service banking devices or other means by which the general public or Members participate in the retail banking operations.

1.2 The term "**Bank-Credit Union Facility**" shall mean and refer to a headquarters, branch or other facility operated as a state bank, a national bank, a savings and loan institution, a community bank, a credit union, or other financial entity that engages in banking operations, or the activities described in the definition of "Credit Union" (as set forth in §6.1-225.2 of the Code of Virginia), or the activities described in §6.1-4(1) of the Code of Virginia.

1.3 The term "Exclusive Use Restriction" shall mean and refer to the restriction in favor of Parcel N5 described in Section 2 below.

1.4 The term "**Owner**" or "**Owners**" shall mean and refer to the Grantor, and any and all successors or assigns of the Grantor as the owner or owners of fee simple title to all or any portion of Parcel E-7, whether by sale, assignment, inheritance, operation of law, trustee's sale, foreclosure, or otherwise, but not including the holder of any lien or encumbrance on any portion of Parcel E-7.

1.5 The term "**Parcel N5 Owner**" or "**Parcel N5 Owners**" shall mean and refer to the Grantee, and any and all successors or assigns of the Grantee as the owner or owners of fee simple title to all or any portion of Parcel N5, whether by sale, assignment, inheritance, operation of law, trustee's sale, foreclosure, or otherwise, but not including the holder of any lien or encumbrance on any portion of Parcel N5.

1.6 The term "**Permittees**" shall mean and refer to the tenant(s), tenant assign(s), subtenant(s) or occupant(s) of any portion of Parcel E-7, and their respective employees, agents, contractors, customers, invitees and licensees.

2. <u>Exclusive Use Restriction</u>. The Grantor, on behalf of itself and the Owners and Permittees of Parcel E-7, expressly agrees that neither Parcel E-7 nor any portion thereof

shall be used as a Bank-Credit Union Facility conducting a Bank-Credit Union Activity without the prior written consent of all Parcel N5 Owners (the "Exclusive Use Restriction").

#### 3. <u>Remedies and Enforcement</u>.

8135

0068

3.1 <u>Events of Default</u>. Any breach or violation by any Owner or its Permittees of the Exclusive Use Restriction shall constitute an "**Event of Default**" hereunder by all Owners then of record.

3.2 Notice. Upon the occurrence of an Event of Default hereunder, any Parcel N5 Owner shall be entitled to give written notice of such Event of Default to the Owners, and the Owners shall have thirty (30) days following the date of such written notice within which to cure such Event of Default.

3.3 <u>Remedies upon Failure to Cure</u>. If, after the provision of such written notice and the expiration of the cure period identified in Section 3.2 hereof, any Event of Default hereunder has not been satisfactorily cured, any Parcel N5 Owner shall be entitled to full and adequate relief by injunction and/or all such other available legal and equitable remedies from the consequences of such Event of Default, including, without limitation, specific performance.

3.4 <u>Remedies Cumulative</u>. The remedies specified herein shall be cumulative and in addition to all other remedies permitted at law or in equity.

3.5 <u>No Termination for Breach</u>. Notwithstanding anything contained herein to the contrary, the occurrence of any Event of Default hereunder shall not entitle anyone to cancel, rescind, or otherwise terminate this Declaration. No Event of Default hereunder shall defeat or render invalid the lien of any deed of trust upon any portion of Parcel E-7 made in good faith for value, but the covenants, conditions and restrictions hereof shall be binding upon and effective against any Owner of Parcel E-7 covered hereby whose title thereto is acquired by foreclosure, trustee's sale, or otherwise.

4. <u>Term</u>. The covenants, conditions and restrictions contained in this Declaration shall be effective commencing on the date of recordation of this Declaration in the Clerk's Office and, except as otherwise set forth herein, shall remain in full force and effect thereafter in perpetuity, unless this Declaration is modified, amended, canceled or terminated in accordance with the applicable provisions of this Declaration.

5. <u>Miscellaneous</u>.

5.1 <u>Attorneys' Fees</u>. In the event any Parcel N5 Owner institutes any legal action or proceeding for the enforcement of any right or obligation herein contained, the substantially prevailing party after a final adjudication shall be entitled to recover its costs and reasonable attorneys' fees incurred in the preparation and prosecution of such action or proceeding, including any appeals.

## BK08135PG069

8135 0069

> 5.2 <u>Amendment</u>. The parties agree that the provisions of this Declaration may be modified or amended, in whole or in part, only by the written consent of all record owners of Parcel E-7 and Parcel N5, evidenced by a document that has been fully executed and acknowledged by all such record owners and recorded among the land records in the aforesaid Clerk's Office.

> 5.3 <u>Termination</u>. This Declaration may only be terminated by the agreement of all of the Parcel N5 Owners of record, which agreement must be in writing and recorded among the land records of the Clerk's Office, and upon recordation of such termination instrument, this Declaration shall be deemed terminated. Upon any such termination, no Parcel N5 Owner shall have any further rights against any Owner under this Declaration, and no Owner shall have any further obligations owing to any Parcel N5 Owner under this Declaration.

> 5.4 <u>Consents</u>. Wherever in this Declaration the consent or approval of any Parcel N5 Owner is required, any request for such consent or approval shall be in writing and be accompanied by such background data as is reasonably necessary to allow the Parcel N5 Owner to make an informed decision thereon. To be effective, the consent of a Parcel N5 Owner under this Declaration must be in writing.

5.5 No Waiver. The failure of any Parcel N5 Owner to insist upon strict performance of any of the terms, covenants or conditions hereof shall not be deemed a waiver of any rights or remedies which any Parcel N5 Owner may have hereunder, at law or in equity and shall not be deemed a waiver of any subsequent breach or default in any of such terms, covenants and conditions. No waiver by any Parcel N5 Owner of any default under this Declaration shall be effective or binding on such Parcel N5 Owner, or any other Parcel N5 Owner, unless made in writing by such parties and no such waiver shall be implied from any omission by a Parcel N5 Owner to take action in respect to such default. No express written waiver of any default shall affect any other default or cover any other period of time other than any default and/or period of time specified in such express waiver. One or more written waivers or any default under any provision of this Declaration shall not be deemed to be a waiver of any subsequent default in the performance of the same provision or any other term or provision contained in this Declaration.

5.6 <u>No Agency</u>. Nothing in this Declaration shall be deemed or construed to create the relationship of principal and agent or of limited or general partners or of joint venturers or of any other association between the Owners and the Parcel N5 Owners.

5.7 <u>Covenants to Run with Land</u>. It is intended that this Declaration, the Exclusive Use Restriction, and the covenants, rights and obligations set forth herein shall run with the land and create equitable servitudes in favor of the property benefited and burdened thereby, shall bind every person having any fee, leasehold or other interest therein and shall inure to the benefit of the respective parties and their successors, assigns, heirs, and personal representatives.

## **IK**08135PG070

5.8 <u>Future Owner's Acceptance</u>. A future Owner of Parcel E-7, or any portion thereof, by acceptance of a deed conveying title thereto or the execution of a contract for the purchase or lease thereof, whether from the Grantor or any subsequent Owner, shall accept such deed, contract or lease upon and subject to each and all of the covenants and obligations contained herein. By such acceptance, any such future Owner shall for himself and his successors, assigns, heirs, personal representatives and Permittees, covenant, consent, and agree to and with the other Owners, to keep, observe, comply with, and perform the obligations and agreements set forth herein with respect to the portion of Parcel E-7 so acquired by such future Owner.

5.9 Severability. Each provision of this Declaration is hereby declared to be independent of and severable from the remainder of this Declaration. If any provision contained herein shall be held to be invalid or to be unenforceable or not to run with the land, such holding shall not affect the validity or enforceability of the remainder of this Declaration. In the event the validity or enforceability of any provision of this Declaration is held to be dependent upon the existence of a specific legal description, the Owners agree to promptly cause such legal description to be prepared. Ownership of both Parcel E-7 and Parcel N5, or portions of both, by the same owner or owners shall not terminate this Declaration nor in any manner affect or impair the validity or enforceability hereof.

5.10 <u>Time of Essence</u>. Time shall be of the essence with respect to this Declaration.

5.11 <u>Entire Agreement</u>. This Declaration contains the complete understanding and agreement of the parties hereto with respect to all matters referred to herein, and all prior representations, negotiations, and understandings are superseded hereby.

5.12 <u>Notices</u>. Notices or other communication hereunder shall be in writing and shall be sent certified or registered mail, return receipt requested, or by other national overnight courier company, or personal delivery. Notice shall be deemed given upon receipt or refusal to accept delivery at the following addresses:

(a) For Owners: At Parcel E-7; and

(b) For Parcel N5 Owners: At Parcel N5.

5.13 <u>Governing Law</u>. The laws of the Commonwealth of Virginia shall govern the interpretation, validity, performance, and enforcement of this Declaration.

5.14 <u>Estoppel Certificates</u>. Each Owner, within twenty (20) days of its receipt of a written request from any Parcel N5 Owner, shall from time to time provide the requesting Parcel N5 Owner with a certificate binding upon such Owner stating that: (a) whether the Owner or any other Owner is in default or violation of this Declaration and if

- 5 -

8135

0071

.

-

so identifying such default or violation, and (b) this Declaration is in full force and effect and identifying any amendments to the Declaration as of the date of such certificate.

5.15 <u>Headings</u>. The headings of the sections and paragraphs of this Declaration are for convenience only and do not in any way limit, amplify or otherwise affect the provisions contained herein.

(The remainder of this page left blank intentionally.)

## BK 08135PG072

IN WITNESS WHEREOF, the parties have executed this Declaration as of the date written above.

#### DECLARATION OF RESTRICTIONS

THIS DECLARATION OF RESTRICTIONS (this "Declaration") is made as of this 31<sup>st</sup> day of January, 2011, by **BANK OF HAMPTON ROADS**, a Virginia banking corporation (the "Grantor"); and **HAMPTON ROADS BANKSHARES**, INC., a Virginia corporation (the "Grantee").

#### RECITALS:

A. Grantor is the owner of that certain parcel of lot, piece or parcel of land described in Exhibit A attached hereto and incorporated herein by this reference (the "Southern Chesapeake Parcel")

B. Grantee is the owner of that certain lot, piece, or parcel of land known as "PARCEL N5 72,896 SQ.FT. (1.673 AC.)" ("**Parcel N5**"), as shown on that subdivision plat entitled "SUBDIVISION OF PARCEL N4 EDINBURGH COMMONS NORTH AS SHOWN IN M.B. 148, PGS. 56-56B AND PROPERTY OWNED BY THE CITY OF CHESAPEAKE AS SHOWN IN MAP BOOK 3911, AT PAGE 131 PLEASANT GROVE BOROUGH CHESAPEAKE, VIRGINIA", dated April 11, 2006, prepared by Hassell & Folkes, P.C., and recorded in the Clerk's Office of the Circuit Court of the City of Chesapeake (the "Clerk's Office"), in Map Book 149, at Pages 86 & 86A.

C. Grantor and Grantee, are affiliates, and for their mutual benefit have developed and are using Parcel N5 for retail banking purposes; and they now desire to subject the Southern Chesapeake Parcel to the provisions of this Declaration in order to provide for certain benefits and restrictions in connection with the use of Parcel N5 and the Southern Chesapeake Parcel.

#### DECLARATION:

NOW, THEREFORE, in consideration of the above premises, the covenants herein contained, the sum of Ten Dollars (\$10.00), and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor hereby declares that the Southern Chesapeake Parcel shall be maintained, kept, sold and used in compliance with and subject to the terms of this Declaration, and in connection therewith, the Grantor, on its own behalf and on behalf of its successors and assigns, covenants and agrees as follows:

1. <u>Definitions</u>. For purposes of this Declaration:

1.1 The term "Bank-Credit Union Activity" shall mean and refer to the operation of retail banking uses and operations that include receiving deposits from and/or making loans to the general public (or members or customers drawn from the general public meeting certain requirements that allow them to be members or customers of the entity conducting the Bank-Credit Union Activity (the "Members")), and/or conducting activities as a "Credit Union" (as defined in §6.1-225.2 of the Code of Virginia), when the receiving of deposits, the making of loans, or the conducting of such other activities is accomplished by means of on-site full service, express service, or motor bank facilities, automated teller machines or other self-service banking devices or other means by which the general public or Members participate in the retail banking operations.

1.2 The term "Bank-Credit Union Facility" shall mean and refer to a headquarters, branch or other facility operated as a state bank, a national bank, a savings and loan institution, a community bank, a credit union, or other financial entity that engages in banking operations, or the activities described in the definition of "Credit Union" (as set forth in §6.1-225.2 of the Code of Virginia), or the activities described in §6.1-4(1) of the Code of Virginia.

1.3 The term "**Exclusive Use Restriction**" shall mean and refer to the restriction in favor of Parcel N5 described in Section 2 below.

1.4 The term "**Owner**" or "**Owners**" shall mean and refer to the Grantor, and any and all successors or assigns of the Grantor as the owner or owners of fee simple title to all or any portion of the Southern Chesapeake Parcel, whether by sale, assignment, inheritance, operation of law, trustee's sale, foreclosure, or otherwise, but not including the holder of any lien or encumbrance on any portion of the Southern Chesapeake Parcel.

1.5 The term "Parcel N5 Owner" or "Parcel N5 Owners" shall mean and refer to the Grantee, and any and all successors or assigns of the Grantee as the owner or owners of fee simple title to all or any portion of Parcel N5, whether by sale, assignment, inheritance, operation of law, trustee's sale, foreclosure, or otherwise, but not including the holder of any lien or encumbrance on any portion of Parcel N5.

1.6 The term "**Permittees**" shall mean and refer to the tenant(s), tenant assign(s), subtenant(s) or occupant(s) of any portion of the Southern Chesapeake Parcel, and their respective employees, agents, contractors, customers, invitees and licensees.

2. <u>Exclusive Use Restriction</u>. The Grantor, on behalf of itself and the Owners and Permittees of the Southern Chesapeake Parcel, expressly agrees that neither the Southern Chesapeake Parcel nor any portion thereof shall be used as a Bank-Credit Union Facility conducting a Bank-Credit Union Activity without the prior written consent of all Parcel N5 Owners (the "Exclusive Use Restriction").

<u>Remedies and Enforcement</u>.

- 2 -

3.1 <u>Events of Default</u>. Any breach or violation by any Owner or its Permittees of the Exclusive Use Restriction shall constitute an "Event of Default" hereunder by all Owners then of record.

3.2 Notice. Upon the occurrence of an Event of Default hereunder, any Parcel N5 Owner shall be entitled to give written notice of such Event of Default to the Owners, and the Owners shall have thirty (30) days following the date of such written notice within which to cure such Event of Default.

3.3 <u>Remedies upon Failure to Cure</u>. If, after the provision of such written notice and the expiration of the cure period identified in Section 3.2 hereof, any Event of Default hereunder has not been satisfactorily cured, any Parcel N5 Owner shall be entitled to full and adequate relief by injunction and/or all such other available legal and equitable remedies from the consequences of such Event of Default, including, without limitation, specific performance.

3.4 <u>Remedies Cumulative</u>. The remedies specified herein shall be cumulative and in addition to all other remedies permitted at law or in equity.

3.5 <u>No Termination for Breach</u>. Notwithstanding anything contained herein to the contrary, the occurrence of any Event of Default hereunder shall not entitle anyone to cancel, rescind, or otherwise terminate this Declaration. No Event of Default hereunder shall defeat or render invalid the lien of any deed of trust upon any portion of the Southern Chesapeake Parcel made in good faith for value, but the covenants, conditions and restrictions hereof shall be binding upon and effective against any Owner of the Southern Chesapeake Parcel covered hereby whose title thereto is acquired by foreclosure, trustee's sale, or otherwise.

4. <u>Term</u>. The covenants, conditions and restrictions contained in this Declaration shall be effective commencing on the date of recordation of this Declaration in the Clerk's Office and, except as otherwise set forth herein, shall remain in full force and effect thereafter in perpetuity, unless this Declaration is modified, amended, canceled or terminated in accordance with the applicable provisions of this Declaration.

Miscellaneous.

5.1 <u>Attorneys' Fees</u>. In the event any Parcel N5 Owner institutes any legal action or proceeding for the enforcement of any right or obligation herein contained, the substantially prevailing party after a final adjudication shall be entitled to recover its costs and reasonable attorneys' fees incurred in the preparation and prosecution of such action or proceeding, including any appeals.

5.2 <u>Amendment</u>. The parties agree that the provisions of this Declaration may be modified or amended, in whole or in part, only by the written consent of all record owners of the Southern Chesapeake Parcel and Parcel N5, evidenced by a document that

- 3 -

has been fully executed and acknowledged by all such record owners and recorded among the land records in the aforesaid Clerk's Office.

5.3 <u>Termination</u>. This Declaration may only be terminated by the agreement of all of the Parcel N5 Owners of record, which agreement must be in writing and recorded among the land records of the Clerk's Office, and upon recordation of such termination instrument, this Declaration shall be deemed terminated. Upon any such termination, no Parcel N5 Owner shall have any further rights against any Owner under this Declaration, and no Owner shall have any further obligations owing to any Parcel N5 Owner under this Declaration.

5.4 <u>Consents</u>. Wherever in this Declaration the consent or approval of any Parcel N5 Owner is required, any request for such consent or approval shall be in writing and be accompanied by such background data as is reasonably necessary to allow the Parcel N5 Owner to make an informed decision thereon. To be effective, the consent of a Parcel N5 Owner under this Declaration must be in writing.

5.5 No Waiver. The failure of any Parcel N5 Owner to insist upon strict performance of any of the terms, covenants or conditions hereof shall not be deemed a waiver of any rights or remedies which any Parcel N5 Owner may have hereunder, at law or in equity and shall not be deemed a waiver of any subsequent breach or default in any of such terms, covenants and conditions. No waiver by any Parcel N5 Owner of any default under this Declaration shall be effective or binding on such Parcel N5 Owner, or any other Parcel N5 Owner, unless made in writing by such parties and no such waiver shall be implied from any omission by a Parcel N5 Owner to take action in respect to such default. No express written waiver of any default and/or period of time specified in such express waiver. One or more written waivers or any default under any provision of this Declaration shall not be deemed to be a waiver of any subsequent default in the performance of the same provision or any other term or provision contained in this Declaration.

5.6 <u>No Agency</u>. Nothing in this Declaration shall be deemed or construed to create the relationship of principal and agent or of limited or general partners or of joint venturers or of any other association between the Owners and the Parcel N5 Owners.

5.7 <u>Covenants to Run with Land</u>. It is intended that this Declaration, the Exclusive Use Restriction, and the covenants, rights and obligations set forth herein shall run with the land and create equitable servitudes in favor of the property benefited and burdened thereby, shall bind every person having any fee, leasehold or other interest therein and shall inure to the benefit of the respective parties and their successors, assigns, heirs, and personal representatives.

5.8 <u>Future Owner's Acceptance</u>. A future Owner of the Southern Chesapeake Parcel, or any portion thereof, by acceptance of a deed conveying title thereto or the execution of a contract for the purchase or lease thereof, whether from the Grantor or any

#### K08333PG756

subsequent Owner, shall accept such deed, contract or lease upon and subject to each and all of the covenants and obligations contained herein. By such acceptance, any such future Owner shall for himself and his successors, assigns, heirs, personal representatives and Permittees, covenant, consent, and agree to and with the other Owners, to keep, observe, comply with, and perform the obligations and agreements set forth herein with respect to the portion of the Southern Chesapeake Parcel so acquired by such future Owner.

5.9 Severability. Each provision of this Declaration is hereby declared to be independent of and severable from the remainder of this Declaration. If any provision contained herein shall be held to be invalid or to be unenforceable or not to run with the land, such holding shall not affect the validity or enforceability of the remainder of this Declaration. In the event the validity or enforceability of any provision of this Declaration is held to be dependent upon the existence of a specific legal description, the Owners agree to promptly cause such legal description to be prepared. Ownership of both the Southern Chesapeake Parcel and Parcel N5, or portions of both, by the same owner or owners shall not terminate this Declaration nor in any manner affect or impair the validity or enforceability hereof.

5.10 <u>Time of Essence</u>. Time shall be of the essence with respect to this Declaration.

5.11 <u>Entire Agreement</u>. This Declaration contains the complete understanding and agreement of the parties hereto with respect to all matters referred to herein, and all prior representations, negotiations, and understandings are superseded hereby.

5.12 <u>Notices</u>. Notices or other communication hereunder shall be in writing and shall be sent certified or registered mail, return receipt requested, or by other national overnight courier company, or personal delivery. Notice shall be deemed given upon receipt or refusal to accept delivery at the following addresses:

- (a) For Owners: At the Southern Chesapeake Parcel; and
- (b) For Parcel N5 Owners: At Parcel N5.

5.13 <u>Governing Law</u>. The laws of the Commonwealth of Virginia shall govern the interpretation, validity, performance, and enforcement of this Declaration.

5.14 <u>Estoppel Certificates</u>. Each Owner, within twenty (20) days of its receipt of a written request from any Parcel N5 Owner, shall from time to time provide the requesting Parcel N5 Owner with a certificate binding upon such Owner stating that: (a) whether the Owner or any other Owner is in default or violation of this Declaration and if so identifying such default or violation, and (b) this Declaration is in full force and effect and identifying any amendments to the Declaration as of the date of such certificate.

- 5 -

5.15 Headings. The headings of the sections and paragraphs of this Declaration are for convenience only and do not in any way limit, amplify or otherwise affect the provisions contained herein.

IN WITNESS WHEREOF, the parties have executed this Declaration as of the date written above.

## **Environmental Questionnaire for User**

Completion required for conformance with ASTM E 1527-13. Failure to provide this information may preclude CERCLA liability protections for the property purchaser. Please return answered form to ECS.

Site Name: As put the Listing provider
Name and Title of Barren e
<u>LARRY P. PATTON - VP LIGOINATION MANAGER STRUST</u>
Signature of Person Completing Questionnaire:
Camp Pallon VP-LIGUIDATION MANAGER
Date: 10 3 2017
Parcel Owner(s) & Parcel Owner(s) Contact Number(s)
A. XENITH BANK
B
C
D
Ε
(1.) Environmental cleanup liens that are filed or recorded against the site (40 CEP 212 25)

ASTM E 1527-13 states that the user (ECS' client) should perform a review of recorded land title records and judicial records for environmental liens or activity and use limitations for the site. Please forward the results of the land title record and judicial record review. If you would prefer, ECS can obtain this information from a third party provider for an additional fee. Please let ECS know if you would like to contract ECS for this service.

Please select one: Client to Provide ECS to Provide for Additional Fee

(2.) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26). Are you aware of any activity use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

Please select one: If yes, please explain:

YES

NOX

(3.) As the user of this *ESA* do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Please select one: NOX YES
(4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29). Does the purchase price being paid for this property reasonably reflect the fair market value of the property?
Please select one: NO YES
If you conclude that there is a difference, is the lower purchase price because contamination is known or believed to be present at the property?
Please select one: NO YES
(5.) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:
(a.) Do you know the past uses of the property?
Please select one: NOX YES
(b.) Do you know of specific chemicals that are present or once were present at the property?
Please select one: <b>NO YES</b>

(c.) Do you know of spills or other chemical releases that have taken place at the property?

Please select one: If yes, please explain:	NOX	YES
(d.) Do you know of any en	vironmental cle	eanups that have taken place at the property?
Please select one: If yes, please explain:	NO	YES
312.31). As the user of	of this ESA, b v obvious ind	e presence or likely presence of contamination at the the contamination by appropriate investigation (40 CFR based on your knowledge and experience related to the licators that point to the presence or likely presence of
Please select one: If yes, please explain:	NOX	YES
(7.) ASTM F 1527-13 india	otos that "E	

(7.) ASTM E 1527-13 indicates that, "Either the user shall make known to the environmental professional the reason why the user wants to have the Phase I Environmental Site Assessment performed or, if the user does not identify the purpose of the Phase I Environmental Site Assessment, the environmental professional shall assume the purpose is to qualify for an LLP to CERCLA liability and state this in the report." As the user of this ESA, what is the reason for conducting the Phase I ESA? If this question is unanswered, ECS will assume that the user's reason for the ESA is to qualify for landowner liability protections to CERCLA liability.

Please state reason for having ESA performed:	DUL PILIZENCE	END	RANIZ

#### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

#### STANDARD ENVIRONMENTAL RECORDS

#### Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 12/12/2016 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
Not reported	233 CARMICHAEL WAY	SW 1/8 - 1/4 (0.165 mi.)	A2	8

#### State and tribal leaking storage tank lists

VA LUST: The Leaking Underground Storage Tank Database.

A review of the VA LUST list, as provided by EDR, has revealed that there is 1 VA LUST site within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
MERCHANTS TIRE AND A Database: LUST REG TD, Date of Facility Status: Closed Facility ID: 200000191346 Pollution Complaint Num: 2000515		E 1/4 - 1/2 (0.370 mi.)	5	27

VA LTANKS: The Leaking Tanks Database contains current Leaking petroleum tanks. The data comes from the Department of Environmental Quality.

A review of the VA LTANKS list, as provided by EDR, and dated 08/02/2017 has revealed that there is 1 VA LTANKS site within approximately 0.5 miles of the target property.

Address	Direction / Distance	Map ID	Page
1805 N BATTLEFIELD B	E 1/4 - 1/2 (0.370 mi.)	5	27

#### State and tribal registered storage tank lists

VA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Environmental Quality's Underground Storage Tank Data Notification Information.

A review of the VA UST list, as provided by EDR, and dated 08/10/2017 has revealed that there is 1 VA UST site within approximately 0.25 miles of the target property.

#### ADDITIONAL ENVIRONMENTAL RECORDS

#### Other Ascertainable Records

PA MANIFEST: Hazardous waste manifest information.

A review of the PA MANIFEST list, as provided by EDR, and dated 12/31/2016 has revealed that there is

1 PA MANIFEST site within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
TARGET STORE 2203	233 CARMICHAEL WAY	SW 1/8 - 1/4 (0.165 mi.)	A3	20
Generator EPA Id: VAR000513523				

#### EDR HIGH RISK HISTORICAL RECORDS

#### EDR Exclusive Records

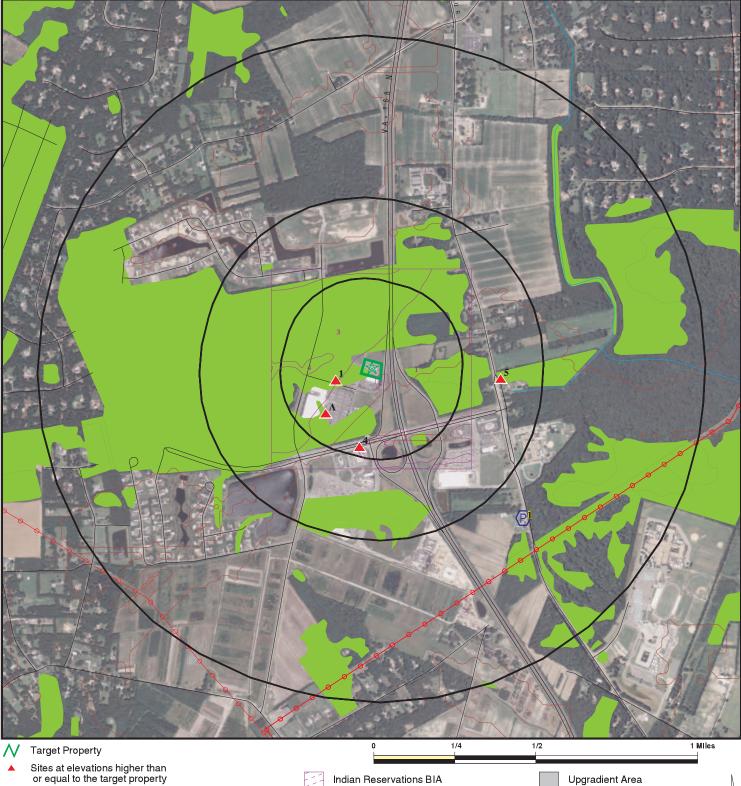

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

Waste code. Waste name:	IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste name:	A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

NO SITES FOUND

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

### STANDARD ENVIRONMENTAL RECORDS

#### Federal NPL site list

#### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 05/30/2017 Date Data Arrived at EDR: 06/08/2017 Date Made Active in Reports: 09/15/2017 Number of Days to Update: 99 Source: EPA Telephone: N/A Last EDR Contact: 07/07/2017 Next Scheduled EDR Contact: 10/16/2017 Data Release Frequency: Quarterly

NPL Site Boundaries

EPA Region 5 Telephone 312-886-6686

EPA Region 10 Telephone 206-553-8665

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

#### NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991 Date Data Arrived at EDR: 02/02/1994 Date Made Active in Reports: 03/30/1994 Number of Days to Update: 56 Source: EPA Telephone: 202-564-4267 Last EDR Contact: 08/15/2011 Next Scheduled EDR Contact: 11/28/2011 Data Release Frequency: No Update Planned

#### Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 05/30/2017 Date Data Arrived at EDR: 06/09/2017 Date Made Active in Reports: 09/15/2017 Number of Days to Update: 98 Source: EPA Telephone: N/A Last EDR Contact: 07/07/2017 Next Scheduled EDR Contact: 10/16/2017 Data Release Frequency: Quarterly

#### Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016	Source: Environmental Protection Agency

	Data Release Frequency: Varies

### SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/07/2017 Date Data Arrived at EDR: 04/19/2017 Date Made Active in Reports: 05/05/2017 Number of Days to Update: 16 Source: EPA Telephone: 800-424-9346 Last EDR Contact: 07/21/2017 Next Scheduled EDR Contact: 10/30/2017 Data Release Frequency: Quarterly

#### Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

	Data Release Frequency: Quarterly

### Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44 Source: Environmental Protection Agency Telephone: 800-438-2474 Last EDR Contact: 09/26/2017 Next Scheduled EDR Contact: 01/08/2018 Data Release Frequency: Quarterly

#### Federal RCRA generators list

## RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44 Source: Environmental Protection Agency Telephone: 800-438-2474 Last EDR Contact: 09/26/2017 Next Scheduled EDR Contact: 01/08/2018 Data Release Frequency: Quarterly

#### RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44 Source: Environmental Protection Agency Telephone: 800-438-2474 Last EDR Contact: 09/26/2017 Next Scheduled EDR Contact: 01/08/2018 Data Release Frequency: Quarterly

### RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

## State- and tribal - equivalent CERCLIS

SHWS: This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list. State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

### State and tribal Brownfields sites

BROWNFIELDS: Brownfields Site Specific Assessments

To qualify for Brownfields Assessment, the site must meet the Federal definition of a Brownfields and should have contaminant issues that need to be addressed and a redevelopment plan supported by the local government and community. Virginia's Department of Environmental Quality performs brownfields assessments under a cooperative agreement with the U.S. Environmental Protection Agency at no cost to communities, property owners or, prospective purchasers. The assessment is an evaluation of environmental impacts caused by previous site uses similar to a Phase II Environmental Assessment.

Date of Government Version: 07/07/2017 Date Data Arrived at EDR: 07/28/2017 Date Made Active in Reports: 09/21/2017 Number of Days to Update: 55 Source: Department of Environmental Quality Telephone: 804-698-4207 Last EDR Contact: 07/28/2017 Next Scheduled EDR Contact: 11/08/2017 Data Release Frequency: Varies

### ADDITIONAL ENVIRONMENTAL RECORDS

### Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 06/19/2017 Date Data Arrived at EDR: 06/20/2017 Date Made Active in Reports: 09/15/2017 Number of Days to Update: 87 Source: Environmental Protection Agency Telephone: 202-566-2777 Last EDR Contact: 09/20/2017 Next Scheduled EDR Contact: 01/01/2018 Data Release Frequency: Semi-Annually

### Local Lists of Landfill / Solid Waste Disposal Sites

INDIAN ODI: Report on the Status of Open Dumps on Indian Lands Location of open dumps on Indian land.

Date of Government Version: 12/31/1998 Date Data Arrived at EDR: 12/03/2007 Date Made Active in Reports: 01/24/2008 Number of Days to Update: 52 Source: Environmental Protection Agency Telephone: 703-308-8245 Last EDR Contact: 08/01/2017 Next Scheduled EDR Contact: 11/13/2017 Data Release Frequency: Varies

DEBRIS REGION 9: Torres Martinez Reservation Illegal Dump Site Locations

A listing of illegal dump sites location on the Torres Martinez Indian Reservation located in eastern Riverside County and northern Imperial County, California.

Date of Government Version: 01/12/2009	Source: EPA, Region 9
Date Data Arrived at EDR: 05/07/2009	Telephone: 415-947-4219
Date Made Active in Reports: 09/21/2009	Last EDR Contact: 07/24/2017
Number of Days to Update: 137	Next Scheduled EDR Contact: 11/08/2017
	Data Release Frequency: No Update Planned

ODI: Open Dump Inventory

An open dump is defined as a disposal facility that does not comply with one or more of the Part 257 or Part 258 Subtitle D Criteria.

Date of Government Version: 06/30/1985 Date Data Arrived at EDR: 08/09/2004 Date Made Active in Reports: 09/17/2004 Number of Days to Update: 39 Source: Environmental Protection Agency Telephone: 800-424-9346 Last EDR Contact: 06/09/2004 Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

IHS OPEN DUMPS: Open Dumps on Indian Land

A listing of all open dumps located on Indian Land in the United States.

Date of Government Version: 04/01/2014 Date Data Arrived at EDR: 08/06/2014 Date Made Active in Reports: 01/29/2015 Number of Days to Update: 176 Source: Department of Health & Human Serivces, Indian Health Service Telephone: 301-443-1452 Last EDR Contact: 08/29/2017 Next Scheduled EDR Contact: 11/13/2017 Data Release Frequency: Varies

#### Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL: National Clandestine Laboratory Register

A listing of clandestine drug lab locations that have been removed from the DEAs National Clandestine Laboratory Register.

Date of Government Version: 02/09/2017	Source: Drug Enforcement Administration
Date Data Arrived at EDR: 03/08/2017	Telephone: 202-307-1000
Date Made Active in Reports: 06/09/2017	Last EDR Contact: 08/30/2017
Number of Days to Update: 93	Next Scheduled EDR Contact: 12/11/2017
	Data Release Frequency: No Update Planned

### US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 02/09/2017 Date Data Arrived at EDR: 03/08/2017 Date Made Active in Reports: 06/09/2017 Number of Days to Update: 93 Source: Drug Enforcement Administration Telephone: 202-307-1000 Last EDR Contact: 08/30/2017 Next Scheduled EDR Contact: 12/11/2017 Data Release Frequency: Quarterly

## Local Land Records

LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 02/18/2014 Date Data Arrived at EDR: 03/18/2014 Date Made Active in Reports: 04/24/2014 Number of Days to Update: 37 Source: Environmental Protection Agency Telephone: 202-564-6023 Last EDR Contact: 07/26/2017 Next Scheduled EDR Contact: 11/08/2017 Data Release Frequency: Varies

#### **Records of Emergency Release Reports**

HMIRS: Hazardous Materials Information Reporting System

Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 12/28/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/03/2017 Number of Days to Update: 37 Source: U.S. Department of Transportation Telephone: 202-366-4555 Last EDR Contact: 09/21/2017 Next Scheduled EDR Contact: 01/08/2018 Data Release Frequency: Annually

SPILLS BRL: Prep/Spills Database Listing

A listing of spills locations located in the Blue Ridge Regional area, Lynchburg.

Date of Government Version: 09/18/2009 Date Data Arrived at EDR: 09/18/2009 Date Made Active in Reports: 10/06/2009 Number of Days to Update: 18 Source: DEQ, Blue Ridge Regional Office Telephone: 434-582-6218 Last EDR Contact: 11/28/2011 Next Scheduled EDR Contact: 03/12/2012 Data Release Frequency: Varies

## SPILLS PD: PREP Database

The Department of Environmental Quality's POLLUTION RESPONSE PROGRAM, known as PREP, provides for responses to air, water, and waste pollution incidents in order to protect human health and the environment.

Date of Government Version: 10/20/2009	Source: Department of Environmental Quality, Piedmont Region
Date Data Arrived at EDR: 10/29/2009	Telephone: 804-527-5020
Date Made Active in Reports: 12/03/2009	Last EDR Contact: 02/06/2012
Number of Days to Update: 35	Next Scheduled EDR Contact: 05/21/2012
	Data Release Frequency: Quarterly

#### SPILLS: Prep/Spills Database Listing

The Department of Environmental Quality's POLLUTION RESPONSE PROGRAM, known as PREP, provides for responses to air, water, and waste pollution incidents in order to protect human health and the environment. PREP staff often work to assist local emergency responders, other state agencies, federal agencies, and responsible parties, as may be needed, to manage pollution incidents. Oil spills, fish kills, and hazardous materials spills are examples of incidents that may involve the DEQ's PREP Program.

Date of Government Version: 08/02/2017	Source: Department of Environmental Quality

	Data Release Frequency: Quarterly

#### SPILLS SW: Reportable Spills

The Department of Environmental Quality's POLLUTION RESPONSE PROGRAM, known as PREP, provides for responses to air, water, and waste pollution incidents in order to protect human health and the environment.

Date of Government Version: 01/21/2010	Source: Department of Environmental Quality, Southwest Region
Date Data Arrived at EDR: 01/22/2010	Telephone: 276-676-4839
Date Made Active in Reports: 02/16/2010	Last EDR Contact: 07/13/2012
Number of Days to Update: 25	Next Scheduled EDR Contact: 10/29/2012
	Data Release Frequency: No Update Planned

#### SPILLS NO: PREP Database

The Department of Environmental Quality's POLLUTION RESPONSE PROGRAM, known as PREP, provides for responses to air, water, and waste pollution incidents in order to protect human health and the environment.

Date of Government Version: 09/23/2009	Source: Department of Environmental Quality, Northern Region
Date Data Arrived at EDR: 09/29/2009	Telephone: 703-583-3864
Date Made Active in Reports: 10/30/2009	Last EDR Contact: 09/06/2011
Number of Days to Update: 31	Next Scheduled EDR Contact: 12/19/2011
	Data Release Frequency: No Update Planned

## SPILLS PC: Pollution Complaint Database

Pollution Complaints Database. The pollution reports contained in the PC database include the initial release reporting of Leaking Underground Storage Tanks and all other releases of petroleum to the environment as well as releases to state waters. The database is current through 12/1/93. Since that time, all spill and pollution reporting information has been collected and tracked through the DEQ regional offices.

Date of Government Version: 06/01/1996 Date Data Arrived at EDR: 10/22/1996 Date Made Active in Reports: 11/21/1996 Number of Days to Update: 30 Source: Department of Environmental Quality Telephone: 804-698-4287 Last EDR Contact: 03/08/2010 Next Scheduled EDR Contact: 06/21/2010 Data Release Frequency: No Update Planned

#### SPILLS 90: SPILLS90 data from FirstSearch

Spills 90 includes those spill and release records available exclusively from FirstSearch databases. Typically, they may include chemical, oil and/or hazardous substance spills recorded after 1990. Duplicate records that are already included in EDR incident and release records are not included in Spills 90.

Date of Government Version: 09/01/2012 Date Data Arrived at EDR: 01/03/2013 Date Made Active in Reports: 02/15/2013 Number of Days to Update: 43 Source: FirstSearch Telephone: N/A Last EDR Contact: 01/03/2013 Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

#### Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Date of Government Version: 12/12/2016 Date Data Arrived at EDR: 12/28/2016 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 44 Source: Environmental Protection Agency Telephone: 800-438-2474 Last EDR Contact: 09/26/2017 Next Scheduled EDR Contact: 01/08/2018 Data Release Frequency: Varies

#### FUDS: Formerly Used Defense Sites

The listing includes locations of Formerly Used Defense Sites properties where the US Army Corps of Engineers is actively working or will take necessary cleanup actions.

Date of Government Version: 01/31/2015 Date Data Arrived at EDR: 07/08/2015 Date Made Active in Reports: 10/13/2015 Number of Days to Update: 97 Source: U.S. Army Corps of Engineers Telephone: 202-528-4285 Last EDR Contact: 08/25/2017 Next Scheduled EDR Contact: 12/04/2017 Data Release Frequency: Varies

DOD: Department of Defense Sites

This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

Date of Government Version: 12/31/2005 Date Data Arrived at EDR: 11/10/2006 Date Made Active in Reports: 01/11/2007 Number of Days to Update: 62 Source: USGS Telephone: 888-275-8747 Last EDR Contact: 07/12/2017 Next Scheduled EDR Contact: 10/23/2017 Data Release Frequency: Semi-Annually

### FEDLAND: Federal and Indian Lands

Federally and Indian administrated lands of the United States. Lands included are administrated by: Army Corps of Engineers, Bureau of Reclamation, National Wild and Scenic River, National Wildlife Refuge, Public Domain Land, Wilderness, Wilderness Study Area, Wildlife Management Area, Bureau of Indian Affairs, Bureau of Land Management, Department of Justice, Forest Service, Fish and Wildlife Service, National Park Service.

Date of Government Version: 12/31/2005	Source: U.S. Geological Survey

#### SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Date of Government Version: 01/01/2017 Date Data Arrived at EDR: 02/03/2017 Date Made Active in Reports: 04/07/2017 Number of Days to Update: 63 Source: Environmental Protection Agency Telephone: 615-532-8599 Last EDR Contact: 08/18/2017 Next Scheduled EDR Contact: 11/27/2017 Data Release Frequency: Varies

### US FIN ASSUR: Financial Assurance Information

All owners and operators of facilities that treat, store, or dispose of hazardous waste are required to provide proof that they will have sufficient funds to pay for the clean up, closure, and post-closure care of their facilities.

Date of Government Version: 05/10/2017 Date Data Arrived at EDR: 05/17/2017 Date Made Active in Reports: 09/15/2017 Number of Days to Update: 121 Source: Environmental Protection Agency Telephone: 202-566-1917 Last EDR Contact: 09/26/2017 Next Scheduled EDR Contact: 01/08/2018 Data Release Frequency: Quarterly

### EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013 Date Data Arrived at EDR: 03/21/2014 Date Made Active in Reports: 06/17/2014 Number of Days to Update: 88 Source: Environmental Protection Agency Telephone: 617-520-3000 Last EDR Contact: 08/07/2017 Next Scheduled EDR Contact: 11/20/2017 Data Release Frequency: Quarterly

### 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 04/22/2013 Date Data Arrived at EDR: 03/03/2015 Date Made Active in Reports: 03/09/2015 Number of Days to Update: 6 Source: Environmental Protection Agency Telephone: 703-308-4044 Last EDR Contact: 08/24/2017 Next Scheduled EDR Contact: 11/20/2017 Data Release Frequency: Varies

#### TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2012 Date Data Arrived at EDR: 01/15/2015 Date Made Active in Reports: 01/29/2015 Number of Days to Update: 14 Source: EPA Telephone: 202-260-5521 Last EDR Contact: 09/22/2017 Next Scheduled EDR Contact: 01/01/2018 Data Release Frequency: Every 4 Years

## TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2014 Date Data Arrived at EDR: 11/24/2015 Date Made Active in Reports: 04/05/2016 Number of Days to Update: 133 Source: EPA Telephone: 202-566-0250 Last EDR Contact: 08/23/2017 Next Scheduled EDR Contact: 12/04/2017 Data Release Frequency: Annually

### SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009Source: EPADate Data Arrived at EDR: 12/10/2010Telephone: 2Date Made Active in Reports: 02/25/2011Last EDR CorNumber of Days to Update: 77Next Schedule

#### RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 02/01/2017 Date Data Arrived at EDR: 02/09/2017 Date Made Active in Reports: 04/07/2017 Number of Days to Update: 57 Source: Environmental Protection Agency Telephone: 202-564-8600 Last EDR Contact: 07/24/2017 Next Scheduled EDR Contact: 11/08/2017 Data Release Frequency: Varies

#### RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995 Date Data Arrived at EDR: 07/03/1995 Date Made Active in Reports: 08/07/1995 Number of Days to Update: 35 Source: EPA Telephone: 202-564-4104 Last EDR Contact: 06/02/2008 Next Scheduled EDR Contact: 09/01/2008 Data Release Frequency: No Update Planned

#### PRP: Potentially Responsible Parties

A listing of verified Potentially Responsible Parties

Date of Government Version: 10/25/2013	Source: EPA
Date Data Arrived at EDR: 10/17/2014	Telephone: 202-564-6023

RADINFO: Radiation Information Database

The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

Date of Government Version: 01/04/2017 Date Data Arrived at EDR: 01/06/2017 Date Made Active in Reports: 02/10/2017 Number of Days to Update: 35 Source: Environmental Protection Agency Telephone: 202-343-9775 Last EDR Contact: 07/12/2017 Next Scheduled EDR Contact: 10/16/2017 Data Release Frequency: Quarterly

### HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006Source:Date Data Arrived at EDR: 03/01/2007TelephoDate Made Active in Reports: 04/10/2007Last EDNumber of Days to Update: 40Next Sc

#### FUSRAP: Formerly Utilized Sites Remedial Action Program

DOE established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations.

Date of Government Version: 12/23/2016 Date Data Arrived at EDR: 12/27/2016 Date Made Active in Reports: 02/17/2017 Number of Days to Update: 52 Source: Department of Energy Telephone: 202-586-3559 Last EDR Contact: 08/03/2017 Next Scheduled EDR Contact: 11/20/2017 Data Release Frequency: Varies

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 09/14/2010 Date Data Arrived at EDR: 10/07/2011 Date Made Active in Reports: 03/01/2012 Number of Days to Update: 146 Source: Department of Energy Telephone: 505-845-0011 Last EDR Contact: 08/22/2017 Next Scheduled EDR Contact: 12/04/2017 Data Release Frequency: Varies

## LEAD SMELTER 1: Lead Smelter Sites

A listing of former lead smelter site locations.

A list of several hundred sites in the U.S. where secondary lead smelting was done from 1931and 1964. These sites may pose a threat to public health through ingestion or inhalation of contaminated soil or dust

Date of Government Version: 04/05/2001 Date Data Arrived at EDR: 10/27/2010 Date Made Active in Reports: 12/02/2010 Number of Days to Update: 36 Source: American Journal of Public Health Telephone: 703-305-6451 Last EDR Contact: 12/02/2009 Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

#### US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

## EDR HIGH RISK HISTORICAL RECORDS

#### EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

#### EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

#### EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

#### EDR RECOVERED GOVERNMENT ARCHIVES

## Exclusive Recovered Govt. Archives

RGA LF: Recovered Government Archive Solid Waste Facilities List

The EDR Recovered Government Archive Landfill database provides a list of landfills derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Environmental Quality in Virgina.

Date of Government Version: N/A Date Data Arrived at EDR: 07/01/2013 Date Made Active in Reports: 01/20/2014 Number of Days to Update: 203 Source: Department of Environmental Quality Telephone: N/A Last EDR Contact: 06/01/2012 Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

RGA LUST: Recovered Government Archive Leaking Underground Storage Tank

The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Environmental Quality in Virgina and at the Regional VA Levels.

Date of Government Version: N/A Date Data Arrived at EDR: 07/01/2013 Date Made Active in Reports: 01/15/2014 Number of Days to Update: 198 Source: Department of Environmental Quality Telephone: N/A Last EDR Contact: 06/01/2012 Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

### **OTHER DATABASE(S)**

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

### CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

#### AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services,

a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes Source: National Institutes of Health Telephone: 301-594-6248 Information on Medicare and Medicaid certified nursing homes in the United States. **Public Schools** Source: National Center for Education Statistics Telephone: 202-502-7300 The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states. **Private Schools** Source: National Center for Education Statistics Telephone: 202-502-7300 The National Center for Education Statistics' primary database on private school locations in the United States. **Daycare Centers: Licensed Facilities** Source: Department of Social Services Telephone: 804-692-1900

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

EDINBURGH 204 CARMICHAEL WAY CHESAPEAKE, VA 23322

## TARGET PROPERTY COORDINATES

Latitude (North):	36.660448 - 36° 39' 37.61"
Longitude (West):	76.231396 - 76° 13' 53.03"
Universal Tranverse Mercator:	Zone 18
UTM X (Meters):	389944.8
UTM Y (Meters):	4057709.8
Elevation:	19 ft. above sea level

#### USGS TOPOGRAPHIC MAP

Target Property Map:	5950725 FENTRESS, VA
Version Date:	2013
Northwest Map:	5950971 DEEP CREEK, VA
Version Date:	2013

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

## **GROUNDWATER FLOW DIRECTION INFORMATION**

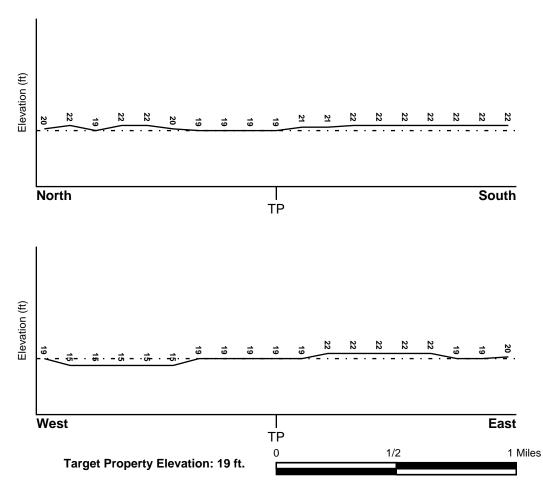

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

## **TOPOGRAPHIC INFORMATION**

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NNW

### SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

## FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
5100340065D	FEMA FIRM Flood data
Additional Panels in search area:	FEMA Source Type
Not Reported	

### NATIONAL WETLAND INVENTORY

	INVVI Electronic
NWI Quad at Target Property	Data Coverage
FENTRESS	YES - refer to the Overview Map and Detail Map

## HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:		
Search Radius:	1.25 miles	
Status:	Not found	

## **AQUIFLOW**®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID Not Reported LOCATION FROM TP GENERAL DIRECTION GROUNDWATER FLOW

## **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

## **GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

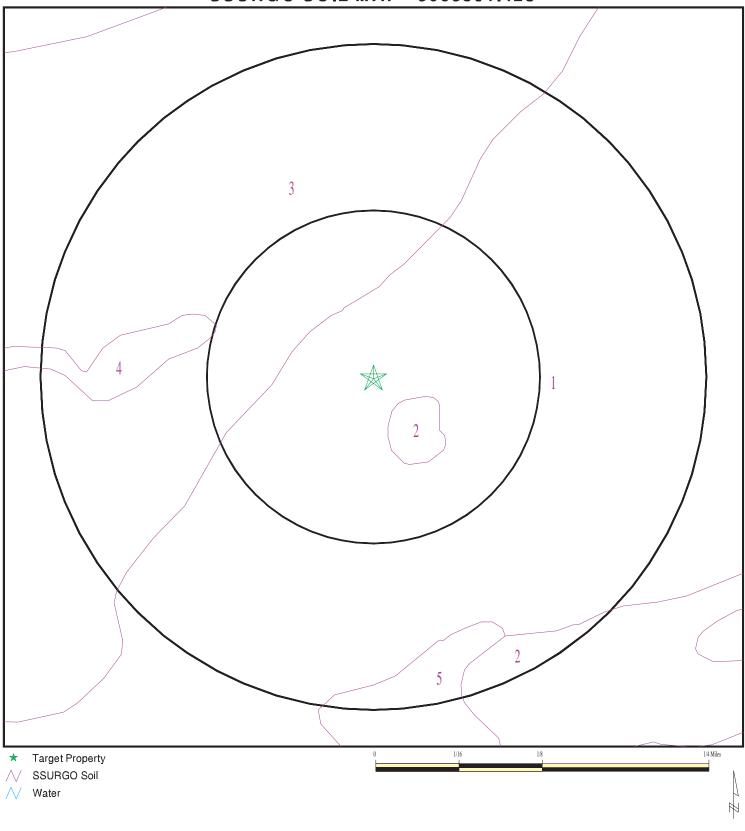

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

## **ROCK STRATIGRAPHIC UNIT**

## DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1	
Soil Component Name:	Tomotley
Soil Surface Texture:	fine sandy loam
Hydrologic Group:	Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.
Soil Drainage Class:	Poorly drained
Hydric Status: All hydric	
Corrosion Potential - Uncoated Steel:	High
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

	Soil Layer Information						
	Boundary			Classification		Saturated hydraulic	
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	conductivity micro m/sec	Soil Reaction (pH)
1	0 inches	7 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 5.5 Min: 3.5
2	7 inches	42 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 14 Min: 4	Max: 5.5 Min: 3.5
3	42 inches	78 inches	fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 4	Max: 6 Min: 4.5

## Soil Map ID: 2

Soil Component Name:	Dragston
Soil Surface Texture:	fine sandy loam
Hydrologic Group:	Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.
Soil Drainage Class:	Somewhat poorly drained
Hydric Status: Partially hydric	
Corrosion Potential - Uncoated Steel:	Low
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 15 inches

	Soil Layer Information						
	Βοι	indary		Classi	Classification		
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	hydraulic conductivity micro m/sec	Soil Reaction (pH)
1	0 inches	9 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 5.5 Min: 4.5
2	9 inches	37 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand. COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 5.5 Min: 4.5
3	37 inches	78 inches	fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6.5 Min: 4.5

## Soil Map ID: 3

Soil Component Name:	Deloss
Soil Surface Texture:	fine sandy loam
Hydrologic Group:	Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.
Soil Drainage Class:	Very poorly drained
Hydric Status: All hydric	
Corrosion Potential - Uncoated Steel:	High
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

	Soil Layer Information						
	Βοι	Indary		Classification		Saturated hydraulic	
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	conductivity micro m/sec	Soil Reaction (pH)

#### **TOPOGRAPHIC INFORMATION**

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map Source: U.S. Geological Survey

#### HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA Telephone: 877-336-2627 Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

#### HYDROGEOLOGIC INFORMATION

AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

#### **GEOLOGIC INFORMATION**

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS) Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by ECS Mid Atlantic, LLC were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

#### Certified Sanborn Results: Certification # 1330-4F28-9CF2 PO# NA 4837-E Project

# UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results Certification #: 1330-4F28-9CF2

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

### **EXECUTIVE SUMMARY**

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

#### **RESEARCH SUMMARY**

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

# 31

# **Appendix V: Site Photographs**

1 - Exterior view of the subject site.

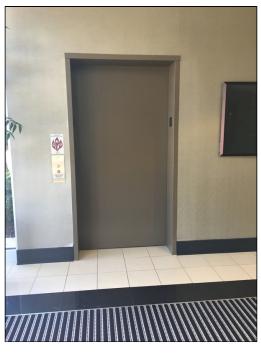

2 - View of the drive through ATM.

3 - Exterior view of the front of the subject building.

4 - Elevator located within the subject building.

5 - View of the entrance way leading to open office space.

6 - View of a transformer on site. Location of a non-PCB containing sticker is visible.

7 - View of office space located on the 2nd floor.

8 - View of the elevator equipment located in the elevator equipment room.

9 - View of the dumpster located on the property.

# Appendix VI: Statement of Qualifications

### STATEMENT OF QUALIFICATIONS ENVIRONMENTAL SERVICES

### **COMPANY BACKGROUND**

ECS Mid-Atlantic, LLC (ECS) is a diverse consulting firm specializing in the related fields of geotechnical, environmental, and construction materials engineering. The firm was founded in 1987 and currently employs a staff of more than 900 people, including registered professional engineers and geologists, certified laboratory technicians and construction inspectors, field engineers, computer specialists and support personnel. Based in Chantilly, Virginia, ECS operates 23 full-service or satellite offices in Virginia, North Carolina, South Carolina, Maryland, Georgia, Texas, Illinois and Florida.

ECS places great emphasis on the individual qualifications and experience of its technical staff. Our environmental personnel have performed a variety of environmentally-related services for major corporations on projects in over 30 states and four countries. Within the environmental field, ECS has provided environmental services to a broad range of clients, including commercial, residential, institutional and industrial clients and lenders.

### ENVIRONMENTAL STUDIES

- o Real estate transactions/environmental site assessments (Phases I, II, and III)
- o Environmental impact studies and risk assessments
- o Wetland delineation and mitigation investigations
- o Environmental facility audits and compliance assessments
- o Voluntary Remediation Programs

### ASBESTOS, LEAD BASED PAINT, MOLD, AND RADON ASSESSMENTS

- o Sample collection and analysis
- o Preparation of plans and specifications

### STORAGE TANK MANAGEMENT

- o Monitoring of tank removals
- o Site investigations and assessments
- o Contaminant plume evaluations
- o Development of corrective actions plans (CAPs)
- o Remediation system design, installation and maintenance
- o Spill Prevention, Control and Countermeasure Plans

# Environmental Staff Project Manager

### **EDUCATION**

Bachelor of Science, 2009, Biology, Longwood University, Farmville, VA

Bachelor of Science, 2010, Environmental Studies, Virginia Commonwealth University, Richmond, VA

Master of Science, 2011, Environmental Studies, Virginia Commonwealth University

Ms. Davis serves as an Environmental Staff Project Manager in the Richmond, Virginia office and is involved in the research and preparation of Phase I and Phase II Environmental Site Assessments for residential, institutional, industrial, and commercial sites. She collects soil and groundwater samples according to established methods for site characterization and investigation purposes. Responsibilities also include conducting wetland delineations, preliminary wetland determinations, preparing Jurisdictional Determination, Nationwide, and Joint Permit Applications with the Virginia Department of Environmental Quality and U.S. Army Corps of Engineers, and designing and monitoring wetland and stream mitigation projects. Ms. Davis is involved in the research and preparation of Chesapeake Bay Resource Preservation Assessments, Area HUD Environmental Reviews, and threatened and endangered species evaluations.

### **SELECT PROJECT EXPERIENCE**

Virginia Commonwealth University Jefferson Hotel Parcel, Richmond, Virginia – Ms. Davis served as the Environmental Scientist for the research and preparation of a Phase I Environmental Site Assessment for a historic warehouse and auto repair facility. Evaluated background information to evaluate the potential for releases of petroleum substances to have impacted the property and provided insight into how those releases may affect future redevelopment of the site by VCU.

**Interbake Building, Richmond, VA** - This project consisted of environmental services for the adaptive reuse of a former 245,000 ft<sup>2</sup> manufacturing facility in the City of Richmond. Services include completing Phase I & Phase II ESAs, lead based paint, asbestos, and mold surveys to evaluate the feasibility and risk associated with the development of the site. Recommendations were provided concerning construction procedures and applicable regulatory requirements with the objective of minimizing liability and future risk.

### SELECT PROJECT EXPERIENCE

- Lehigh Cement Brownfield Property, Richmond, VA
- Former Reynolds South Plant Ph II ESA, Richmond, VA
- Virginia Capital Trail and Lehigh Cement Phase II ESA, Richmond, VA
- Virginia Capital Trail Sherwood Forest Phase, Charles City County, VA
- Former Appomattox Bioenergy Ethanol Plant, Hopewell, VA
- Armitage Manufacturing Building, Richmond, Virginia

- Proposed Tractor Supply, Dinwiddie, VA
- Virginia Commonwealth University, Term Contract, Richmond, VA
- Route 628 Expansion, Farmville, VA
- Former Buick Dealership, South Hill, VA
- Atlantic Emergency Solutions, Chesterfield County, VA
- The Shire at Short Pump, Henrico County, VA
- Fairfield Commons Mall, Richmond, VA
- Charter Colony Development, Chesterfield, VA
- Former Stronghill Restaurant, Richmond, VA
- Former Coca-Cola Bottling Plant, Richmond, VA

### WILLIAM R. LEONARD

### ENVIRONMENTAL GROUP MANAGER, PRINCIPAL

#### EDUCATION

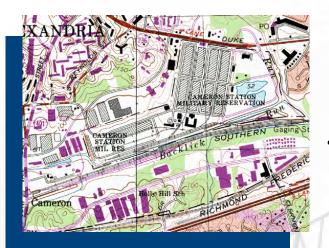

College of William and Mary, Williamsburg, Virginia Bachelor of Science – Geology

# REGISTRATIONS, CERTIFICATIONS AND AFFILIATIONS

Certified Professional Geologist, Virginia OSHA 40-hour Hazardous Waste Operations Training Certificate (HAZWOPER) Member, ASTM Committee E50 – Environmental Assessment

### PROFESSIONAL ACTIVITIES

Coordination and Oversight of: Phase I, II, and III Assessments Soil & Groundwater Sample Collection Underground Storage Tank Investigations Contaminated Soil Excavation Monitoring Risk Assessments VRP and VCP Projects Hazardous Materials Surveys Wetland and Natural Resources Studies

CAMERON STATION

#### EXPERIENCE

Environmental Group Manager Principal – ECS Mid-Atlantic, LLC

Mr. Leonard is a Certified Professional Geologist and Manager of the Environmental Department in the ECS Chantilly, Virginia Office. He has 31 years of construction site experience and 18 years of experience involving environmental assessments, investigations and remediation. Responsibilities beyond his department management duties include consultation on complex environmental projects and oversight of Voluntary Remediation Projects, Phase I and Phase II Environmental Site Assessments, Underground Storage Tank Removal, Closure, Monitoring, and Remediation, and Hazardous Materials and Indoor Air Quality Surveys.

#### Project Experience

#### Cameron Station Military Reservation

Environmental Consultant for the Purchaser in the first successful private acquisition of a Military Base under the Base Realignment and Closure (BRAC) Program. Environmental concerns included leaking underground storage tanks, polychlorinated biphenyl (PCB) spills, dredge spoil areas, landfills, battery acid disposal pits, structural materials containing asbestos and lead-based paint, and groundwater contaminant plumes associated with disposal of chlorinated solvents.

Performed Phase I and Phase II Assessments, and operated as liaison between the prospective purchaser and the Army, the Virginia Department of Environmental Quality and the Environmental Protection Agency. Subsequently, the base was successfully redeveloped with single-family and multifamily housing, an elementary school and a City of Alexandria Park with athletic fields and a pond.

#### Disney America Site

Conducted Phase I and II Environmental Site Assessments, and seismic studies on a 2,700 acre tract of land in Prince William County, Virginia for The Walt Disney Corporation. The property was slated for development as their third theme park in the United States. It was to be named Disney America. Subsequent opposition from anti-development environmental and citizen groups caused Disney to abandon the project and sell the site. It was later developed as a large planned golf course community.

ENGINEERING CONSULTING SERVICES

CHEMICAL STORAGE AREA

William R. Leonard - Environmental Group Manager/Principal

**Project Experience** 

Pharmaceutical Research and Manufacturing Firm

During a Phase I ESA in a Flex-Tech Park, identified the presence of a tenant that, unknown to the property owner, performed pharmaceutical research and manufacturing in their tenant space.

A reconnaissance of the space identified the presence of a laboratory storage area containing over 2,000 glass and metal chemical containers varying in size from one ounce to 55-gallons, many in various stages of deterioration, presenting significant fire, explosive and toxicological threats to workers within the Park. After removal of the containers, ECS performed a contamination survey that identified significant residual levels of metals and chemical compounds in building elements such as ceiling tiles, ventilation ducts and an acid neutralization pit that was integral to the sanitary sewer system.

Potomac Yard

Performed Phase I and Phase II Environmental Site Assessments. Emergency Spill Response and oversight of Remediation activities performed on various Land Bays of the former Potomac Yard Rail Yard in Alexandria, Virginia.

The Potomac Yard site, as a whole, was owned and operated by the Richmond Fredericksburg and Potomac (RF&P) (in conjunction with other railroads) as a receiving and classification switchyard from 1906 to 1990. Numerous environmental investigations identified subsurface petroleum contamination in soils and ground water beneath the site and cinder ballast material (bottom ash from coal-burning locomotives) that was used as fill material beneath portions of the site. Portions of the site have been redeveloped with commercial, office and residential uses. Other areas are slated for redevelopment in the near future.
